**Macau's Languages in Society and Education** Andrew J. Moody, 2021-03-18 This book examines the role of English within education and society in the quickly changing city of Macau Macau's multilingual language ecology offers the unique opportunity to examine language planning and policy issues within a small speech community The languages within the ecology include several Chinese varieties such as Cantonese Putonghua and Hokkien European languages like Portuguese and English and a number of Asian languages that include among others Burmese Filipino languages Japanese Timorese etc As the smallest city in South China's Pearl River Delta Macau has sought to maintain cultural and linguistic independence from its larger neighbours and independence has been built upon an historic commitment to multilingualism and cultural plurality As economic development and globalisation offer new opportunities to a growing middle class the sociolinguistics of a small society constrain and influence the language policies that the territory seeks to implement Macau's multilingual and pluralistic response to language needs within the territory echoes historical responses to similar challenges and suggests that small communities function sociolinguistically in ways that differ from larger communities **Emerging**

**Textile-exporting Countries**, 1982 **THE ACCULTURATION OF MACAU'S AMERICAN GAMING ENTERPRISES**

CHEN PING, 2021-06-14 This book mainly discusses the mode of cultural adaptation of transnational corporations and the choice of American gaming enterprises how cross-cultural management being linked with CSR the opportunity for American gaming enterprises to enter Macau the impact it brings and the challenges it encounters the changes in CSR of Macau gaming enterprises before and after Gaming liberalization the differences between American gaming enterprises and local gaming enterprises the manifestations and main characteristics of American gaming enterprises how the governance and

actions of the three American gaming enterprises being carried out and the differences between the cultural adaptation of U S non gaming MNCs and other major issues This book holds that starting from the needs of cultural adaptation gaming enterprises actively carry out cross cultural management to adapt to the economic and social structure of the host country realize cultural interaction and integration form a comprehensive social contractual relationship with stakeholders and make the corresponding CSR strategy selection in the standardization and localization strategies The Far East and Australasia 2003 Europa Publications,2002 A unique survey of each country in the region It includes an extensive collection of facts statistics analysis and directory information in one accessible volume **China and International Human Rights** Na Jiang,2013-12-12 This book is designed to introduce law students legal actors and human rights activists particularly participants in human rights dialogues with China to the process and reality of a newly confident China s participation in the international human rights system albeit with inherent challenges From an international and comparative perspective one of the key findings of the author s research is that progress towards human rights depends more on judges than on legislators Chinese legislators have enacted a series of reforms in order to better protect human rights Unfortunately these reforms have not led to greater adherence to China s international human rights obligations in practice The reforms failed because they have generally been misunderstood by Chinese judges who often have a limited understanding of international human rights norms Specifically this book will examine how judicial misunderstandings have blocked reforms in one specific area the use of severe punishments based on international human rights theory and case studies and data analyses This examination has several purposes The first is to suggest that China ratify the ICCPR as the next step for its substantive progress in human rights and as a good preparation for its re applying to be a member of the UN Human Right Council in the future The second is to explain how judges could be better educated in international human rights norms so as to greatly reduce the use of severe punishments and better comply with China s human rights obligations The third is to demonstrate how the international community could better engage with China in a manner that is more conducive to human rights improvements The author s ultimate goal is to enhance dialogue on human rights in China between judges and the Chinese government between Chinese judges and their foreign counterparts and between China s government and the international community Another significant aim of this book is to clarify the controversial question of what obligations China should undertake before its ratification of the ICCPR and to re examine trends in its developing human rights policy after standing down from the Council in late 2012 The tortuous progress of China s criminal law and criminal justice reforms has confirmed that Chinese judges need further instruction on how to apply severe punishments in a manner consistent with international standards Judges should be encouraged to exercise more discretion when sentencing so that penalties reflect the intent of relevant domestic laws as well as the international human rights standards enumerated in the ICCPR In order to better educate and train judges this book contains introductory chapters that examine the severe punishments currently available to

Chinese judges from an international human rights perspective To illustrate how Chinese justice currently falls short of international norms this paper also examines several cases that are considered to be indicative of China s progress towards greater respect for human rights and the rule of law These cases demonstrate that China still has a long way to go to achieve its goals at least before abolishing the death penalty forced labor and torture
