The Luo People in South Sudan Kon K. Madut, 2020-08-13 This work draws from several interpretations and perceptions of Luo ethnic groups regarding their kinships lineages and the geocultural claims pertaining to their identity and sociocultural interactions among social groups and communities It builds on the current literature and oral history to methodologically reaffirm kinships and establish ethnic lineages Most contemporary Luo narratives come from Kenya and Uganda in addition to those written by Western anthropologists and missionaries None of these narratives have changed the content of the oral stories told by Luo groups and subgroups in Africa especially those related to their lineages ethnic affiliations and their path of immigration from South Sudan to Tanzania but have instead confirmed the history stories and mythology of the greater Luo groups in Africa This book will serve to evoke intellectual curiosity among African social scientists prompting them to conduct more research to further understanding of Luo ethnic groups ways of life and social interactions as well as their contributions to the sociopolitical and economic development in the countries and regions they inhabit
