The Savage Mind Claude Lévi-Strauss, 1974

The Savage Mind Claude Lévi-Strauss, 1988-12-31 This is a classic work by one of the intellectual giants of the twentieth century It is an original and brilliant examination of the structure of the thought of primitive peoples and has contributed significantly to our understanding of the way the human mind works The English translation was originally published in 1966 and is now available from Oxford University Press

Theory of the Moral Life John Dewey, 1996

Race, Anthropology, and Politics in the Work of Wifredo Lam Claude Cernuschi, 2019-05-31 This book reinterprets Wifredo Lam's work with particular attention to its political implications focusing on how these implications emerge from the artist's critical engagement with 20th century anthropology Field work conducted in Cuba including the witnessing of actual Afro-Cuban religious ritual ceremonies and information collected from informants enhances the interpretive background against which we can construe the meanings of Lam's art In the process Claude Cernuschi argues that Lam hoped to fashion a new hybrid style to foster pride and dignity in the Afro-Cuban community as well as counteract the acute racism of Cuban culture

Mind, 1877

The Domestication of the Savage Mind Jack Goody, 1977-11-24 Professor Goody's research in West Africa resulted in finding an alternative way of thinking about traditional societies

Sartre, Imagination and Dialectical Reason Austin Hayden Smidt, 2019-06-28 There are perpetual debates about the extent of freedom in politics Are we free to choose Are we overdetermined by our material conditions Some hybrid between the two What is more how are we to comprehend ourselves as creators of history if freedom itself is a problematic concept And what would it mean if self-comprehension were foreclosed by this problematic In this text Austin Hayden Smidt analyzes an oft-overlooked text by Jean-Paul Sartre in order to ground a logical framework for exploring this paradox In *Critique of Dialectical Reason* Sartre sought to develop an historical and structural heuristic one that would enable future theorists and activists alike to assess the pressing problems facing the various milieus of capitalist life Through this heuristic his intent was to develop an orientation enabling humans to transform their world in their perpetual creation of themselves and vice versa However the stylistic difficulties of the text as well as a general agreement among previous interpreters has prevented the richness of the investigation from taking root This book sets a new course and invites further collaboration as together we create society as a work of art

Playful Identities Michiel Lange, Joost Raessens, Jos Mul, Sybille Lammes, Valerie Frissen, 2025-10-01 In this edited volume eighteen scholars examine the increasing role of digital media technologies in identity construction through play Going beyond computer games this interdisciplinary collection argues that present-day play and games are not only appropriate metaphors for capturing postmodern human identities but are in fact the means by which people create their identity From discussions of *World of Warcraft* and *Foursquare* to digital cartographies the combined essays form a groundbreaking volume that
