## **A Guide to Resource Guarding in Dogs**

### **Introduction**

This manual is about dogs who growl, snarl, snap and bite when you try to take things away from them, approach them when they are eating or when they have claimed some other resource, such as their owner or a comfy sleeping location. This is a remarkably common problem but, luckily, can often be successfully resolved and even prevented.

### **Acknowledging the Bar**

There continues to be rampant animosity towards dogs with aggression problems. My Academy co-instructor, Janis, has pointed out that the attitude, at least here in the US, used to be more relaxed. In a hilarious James Thurber story, a woman sends boxes of chocolates at Christmas to everyone the dog bit that year. One year she sent out 50 boxes. A crotchety dog was more taken in stride and cause for humorous annoyance than cause for litigation, as it would be today. Dogs were animals and animals sometimes bit.
