Moreover industrial revolution gave new ideas for the artists and they are evincing interest in bringing the change in the way they paint the fine arts Moreover modern art is considered to be much closer to the modern life over art in the bygone era In fact the artists portraying their views about the world is being better represented in modern art over the art in the preceding centuries There are many different kinds of art styles that are being defined during 1860 to 1960 and it is quite cumbersome for the people to find which art has actually defined the modern art The key difference between modern artists and the traditionalists is that self belief Basically art is being valued and appreciated by the people if it portrays some important values of life
