Psychoanalysis Of Fire:

The Psychoanalysis of Fire Gaston Bachelard,1987-01-30 Bachelard is neither a self confessed and tortured atheist like Satre nor like Chardin a heretic combining a belief in God with a proficiency in modern science But within the French context he is almost as important as they are because he has a pseudo religious force without taking a stand on religion To define him as briefly as possible he is a philosopher with a professional training in the sciences who devoted most of the second phase of his career to promoting that aspect of human nature which often seems most inimical to science the poetic imagination J G Weightman The New York Times Review of Books *The Psychoanalysis of Fire, by Gaston Bachelard*

Gaston Bachelard,1994 **The Psychoanalysis of Fire** Gaston Bachelard,1968 **Encyclopedia of Contemporary Literary Theory** Irene Rima Makaryk,1993-01-01 The last half of the twentieth century has seen the emergence of literary theory as a new discipline As with any body of scholarship various schools of thought exist and sometimes conflict within it I R Makaryk has compiled a welcome guide to the field Accessible and jargon free the Encyclopedia of Contemporary Literary Theory provides lucid concise explanations of myriad approaches to literature that have arisen over the past forty years Some 170 scholars from around the world have contributed their expertise to this volume Their work is organized into three parts In Part I forty evaluative essays examine the historical and cultural context out of which new schools of and approaches to literature arose The essays also discuss the uses and limitations of the various schools and the key issues they address Part II focuses on individual theorists It provides a more detailed picture of the network of scholars not always easily pigeonholed into the categories of Part I This second section analyses the individual achievements as well as the influence of specific scholars and places them in a larger critical context Part III deals with the vocabulary of literary theory It identifies significant complex terms places them in context and explains their origins and use Accessibility is a key feature of the work By avoiding jargon providing mini bibliographies and cross referencing throughout Makaryk has provided an indispensable tool for literary theorists and historians and for all scholars and students of contemporary criticism and culture

Architecture and Fire Stamatis Zografos,2019-06-12 *Architecture and Fire* develops a conceptual reassessment of architectural conservation through the study of the intimate relationship between architecture and fire Stamatis Zografos expands on the general agreement among many theorists that the primitive hut was erected around fire locating fire as the first memory of architecture at the very beginning of architectural evolution Following the introduction Zografos analyses the archive and the renewed interest in the study of archives through the psychoanalysis of Jacques Derrida He moves on to explore the ambivalent nature of fire employing the conflicting philosophies of Gaston Bachelard and Henri Bergson to do so before discussing architectural conservation and the relationship between listed buildings the function of archives and the preservation of memories from the past The following chapter investigates how architecture evolves by absorbing and accommodating fire while the penultimate chapter examines the critical moment of architectural evolution the destruction of

buildings by fire with a focus on the tragic disaster at London's Grenfell Tower in 2017 Zografos concludes with thoughts on Freud's drive theory He argues the practice of architectural conservation is an expression of the life drive and a simultaneous repression of the death drive which suggests controlled destruction should be an integral part of the conservation agenda Architecture and Fire is founded in new interdisciplinary research navigating across the boundaries of architecture conservation archival theory classical mythology evolutionary theory thermodynamics philosophy and psychoanalysis It will be of interest to readers working in and around these disciplines **La Psychanalyse du Feu** Gaston Bachelard,1985-01-01

scholarship for which the series is renowned this is another valuable contribution to literary criticism and theory *Poems for John Coltrane* John Taggart,1969 *International Dictionary of Psychoanalysis* A. de Mijolla,2005 The history of psychoanalysis in 50 countries shows the relationship between psychoanalysis and other disciplines with entries discussing writers philosophers literary movements and historical events *Journal of Sexology and Psychoanalysis* ,1924

Psychoanalysis of Fire. Translated by A.C.M.Ross Gaston BACHELARD,1964 World Philosophers and Their Works: Abe, Masao ,2000 Examines the lives works and influence of ancient and contemporary world philosophers from Pythagoras and Jalal al Din Rumi to Elie Wiesel and Alison M Jaggar and analyzes the authorship and historical context of ancient works Yves the Provocateur Thomas McEvelley,2010 For seven years from 1956 to 1962 a young French artist electrified the European art world with visual conceptual and performance art works far ahead of their time His rise was wildly celebrated by some as the appearance of a prophetic genius and derisively dismissed by others as scandalous nonsense His monochrome paintings body art works fire paintings conceptual exhibitions and music and monumental public space works threatened to upend the very categories of art in both Europe and America Indeed after his tragically premature death in 1962 some of the most far reaching transformations in contemporary art would follow directly in his wake But by the 1970s his reputation seemed headed for oblivion until in 1977 a young classics scholar at Rice University Thomas McEvelley proposed Klein for a retrospective show to Dominique deMenil then director of the Rice gallery and wrote several texts about Klein that would transform our understanding of Yves Klein s aesthetics The project grew to involve major institutions resulting in 1982 with exhibitions in Houston New York Paris and Chicago Virtually overnight Yves Klein s art reentered the art canon Coincidentally the career of an important critic was launched Yves the Provocateur collects those writings of Thomas McEvelley which rejuvenated Klein s stature and hitherto were only available in journals and exhibition catalogues In effect it provides the skeleton key to clearly examine the full dimensions of Klein s accomplishment In two opening essays McEvelley briefly surveys and places Klein s art into context Then in the centerpiece essay which amounts to a miniature critical biography bearing all the best features of a novella he traces the formative and crucial events in Klein s life Finally he describes Klein s intellectual development demonstrating how Klein embedded and parodied in his work the philosophical system of a particular form of Rosicrucianism **Essays in Commemoration of the Golden Jubilee of the Fung Ping**

Fantasticism Fanfan Chen,2007 Inspired by a universal cross cultural vision this book provides a comparative analysis of the rhetorical and stylistic features in fantastic literature effortlessly crossing the boundaries of cultures languages and epochs to explore their literary manifestations of the unknown According to the author fantastic literature conveys a form of

storytelling whose poeticization bridges the known and the unknown realms in Gilbert Durand's mythocritical transcendental sense. The author's scope ranges from ancient myths to contemporary literature and addresses developments in Chinese literature and the Greco-Roman fantastic tradition as well as English, French, German, and Hispanic literatures. The encyclopaedic breadth and depth of her work responds to the long-felt need for a comparative approach to fantastic literature bridging Eastern and Western traditions. Foucault's Antihumanist Historiography Joseph Cronin, 2001. This study introduces antihumanism as the pivotal element in Foucault's work and reads his work from an Althusserian structural Marxist perspective.
