The Language of the Law David Mellinkoff,2004-05-13 This book tells what the language of the law is how it got that way and how it works out in the practice The emphasis is more historical than philosophical more practical than pedantic

Practical Neural Network Recipes in C++ Masters,2014-06-28 This text serves as a cookbook for neural network solutions to practical problems using C It will enable those with moderate programming experience to select a neural network model appropriate to solving a particular problem and to produce a working program implementing that network The book provides guidance along the entire problem solving path including designing the training set preprocessing variables training and validating the network and evaluating its performance Though the book is not intended as a general course in neural networks no background in neural works is assumed and all models are presented from the ground up The principle focus of the book is the three layer feedforward network for more than a decade as the workhorse of professional arsenals Other network models with strong performance records are also included Bound in the book is an IBM diskette that includes the source code for all programs in the book Much of this code can be easily adapted to C compilers In addition the operation of all programs is thoroughly discussed both in the text and in the comments within the code to facilitate translation to other languages

Legal Discourse across Cultures and Systems Vijay K. Bhatia,Christopher N. Candlin,Jan Engberg,2008-01-01 What exactly is legal about legal language What happens to legal language when it is used across linguistic national socio political cultural and legal systems In what way is generic integrity of legal documents maintained in multilingual and multicultural legal contexts What happens when the same rule of law is applied across legal systems By bringing together scholars and practitioners from more than ten countries representing various jurisdictions languages and socio political backgrounds this book addresses these key issues arising from the differences in legal or sociocultural systems The discussions are based not only on the analysis of the legal texts alone but also on the factors shaping such constructions and interpretations Given the increasing international need for accurate and authoritative translation and use of legal documents this important volume has considerable contemporary relevance in a globalized economy It will appeal to discourse analysts commercial consultants legal trainers translators and applied researchers in professional communication especially in the field of legal writing and languages for specific purposes
