**Cultural Variation in Conflict Resolution** Douglas P. Fry, Kaj Björkqvist, Kaj Björkqvist, 2013-04-15 This volume's central purpose is to provide a clearly written scholarly exploration of cultural variation regarding conflict resolution and in so doing highlight certain alternatives to violence. It presents an interdisciplinary examination of how conflicts are perceived and handled in a variety of cultural settings. Drawing on data and models from anthropology, psychology, and political science, the chapters analyze conflict resolution across the societal spectrum, including cases from Western and non-Western traditions, complex and tribal societies, and violent and non-violent cultures. While demonstrating the extremely important impact of culture on conflict resolution processes, the book does not solely emphasize cultural specificity. Rather, through introductory chapters, section introductions, and a concluding chapter, the volume's editors draw attention to cross-cultural patterns in an attempt to further the search for more general conflict principles. An explicit message throughout the book is that alternatives to violence exist. The volume demonstrates that at various levels, from the interpersonal to the international, conflicts can be handled in ways that cause far less pain and destruction than violence. Chapters by psychologists discuss social and cognitive processes for facilitating the learning of alternatives to violence among children and youth. Anthropology contributors explore mechanisms for dealing with social conflict which allow some cultures to remain relatively peaceful and consider implications of their work for reducing violence in other societies. Chapters by former President of Costa Rica, Oscar Arias, and by political scientists examine how non-violent political solutions can be employed as alternatives to warfare and violent resistance.

**Northern Ireland and the crisis of anti-racism** Chris Gilligan, 2018-09-25 Racism and sectarianism makes an important contribution to the discussion on the crisis of anti-racism in the United Kingdom. The book looks at two phenomena that are rarely examined together: racism and sectarianism. The author argues that thinking critically about sectarianism and other racisms in Northern Ireland helps to clear up some confusions regarding race and ethnicity. Many of the prominent themes in debates on racism and anti-racism in the UK today—the role of religion, racism, and terrorism, community cohesion—were central to discussions on sectarianism in Northern Ireland during the conflict and peace process. The book provides a sustained critique of the Race Relations paradigm that dominates official anti-racism and sketches out some elements of an emancipatory anti-racism.

**Partitioned Lives: The Irish Borderlands** Ms Bryonie Reid, Professor Brian Graham, Professor Catherine Nash, 2013-08-28 *Partitioned Lives: The Irish Borderlands* explores everyday life and senses of identity and belonging along a contested border whose official functions and local impacts have shifted across the twentieth century. It does so through the accounts of contemporary borderland residents in Ireland and Northern Ireland who shared with us their reflections on and experiences of the border from the 1950s to the present day. Since the border is the product of the partition of the island and the creation of Northern Ireland, its meaning has been deeply entangled with the radically and often violently opposed

perspectives on the legitimacy of Northern Ireland and the political reunification of the island Yet the intensely political symbolism of the border has meant that relatively little attention has been paid to the lived experience of the border its material presence in the landscape and in people s lives and its materialisation through the practices and policies of the states on either side Drawing on recent approaches within historical political and cultural geography and the cross disciplinary field of border studies this book redresses this neglect by exploring the Irish border in terms of its meanings from the political to the personal but also and importantly through the objects from tables of custom regulations and travel permits to road blocks and military watch towers and practices from official efforts to regulate the movement of people and objects across it to the strategies and experiences of those subject to those state policies through which it was effectively constituted The focus is on the Irish border as practised experienced and materially present in the borderlands

*Political Violence in Context* Lorenzo Bosi,Niall Ó Dochartaigh,Daniela Pisoiu,2024-08-30 Context is crucial to understanding the causes of political violence and the form it takes This book examines how time space and supportive milieux decisively shape the pattern and pace of such violence While much of the work in this field focuses on individual psychology or radical ideology Bosi Dochartaigh Pisoiu and others take a fresh innovative look at the importance of context in generating mobilisation and shaping patterns of violence The cases dealt with range widely across space and time from Asia Africa and Europe to the Americas and from the Irish rebellion of 1916 through the Marxist insurgency of Sendero Luminoso to the Invisible Commando of C te d Ivoire They encompass a wide range of types of violence from separatist guerrillas through Marxist insurgents and Islamist militants to nationalist insurrectionists and the distinctive forms of urban violence that have emerged at the boundary between crime and politics Chapters offer new theoretical perspectives on the decisive importance of the spatial and temporal contexts and supportive milieux in which parties to conflict are embedded and from which they draw strength

**Strained Peace: Northern Ireland from Good Friday to Brexit** Amanda Hall, 2024-09-30 As the United Kingdom continues to grapple with the aftermath of Brexit one corner of the Union has remained caught in the crosshairs Northern Ireland has been the subject of renewed scrutiny since 2016 as efforts to leave the European Union come up against the terms of the Good Friday Agreement and threaten the region's hard won peace The reasons for these challenges can be traced back to the Agreement itself as the negotiated settlement and its immediate aftermath set in place a strained peace This book examines the function and dysfunction of peace after 1998 to explain why its endurance cannot be taken for granted Strained peace stands apart from the traditional peace violence binary Structures of conflict and patterns of division are reiterated in the structures of peace Tensions might relax just as they might be inflamed by new challenges but the threat of a return to violence is never fully gone This book explores how such a condition developed between Good Friday and Brexit addressing variations in the quality of peace in the insecurity of official structures at Stormont the shifting role of community groups and the third sector and the adaptation of culture as a culture war replaced physical violence on the streets

**International Journal of Group Tensions**, 1990

**The Irish Terrorism Experience** Yonah Alexander, Alan O'Day, 1991 The essays in this volume seek to explore and explain the origins nature and consequences of modern Irish terrorism From the front flap

The Failure of the Northern Ireland Peace Process Gary Peatling, 2004 This book is a surprisingly broad study of the Northern Ireland conflict and peace process with an unusual and contentious hypothesis though one ultimately likely to prove useful even to those who disagree with it The book is influenced by a sense of the interlacing nature of political groups and dynamics in Northern Ireland which evinces understanding of though not empathy with even mutually exclusive positions in a way few writers on the Northern question draw out This sense that even groups often portrayed as intransigent find a constituency in Northern Ireland based upon the lived experience of groups and communities is underpinned by the book's view of identity and its consequences The book also addresses much discussed wider controversies such as debates surrounding immigration terrorism and September 11th and national identity It addresses these issues with unorthodox conclusions and it is guaranteed to be of interest to intelligent non specialists as well

as to academics and policy makers      **Terrorism's Laboratory** Alan O'Day,1995 The premiss of this book is that the Northern Ireland case offers a testing ground for the management suppression and voluntary cessation of ethnic violence The troubles are analyzed and the adaptive nature of the people and organizations participating in the struggle is assessed
