Polluting Sacred Faith:

Polluting Sacred Faith Pramod Kumar,1992-01-01 **Polluting Sacred Faith** Pramod Kumar,1992 **Inner Purity and Pollution in Greek Religion** Andrej Petrovic,Ivana Petrovic,2016-10-06 Was Ancient Greek religion really mere ritualism Early Christians denounced the pagans for the disorderly plurality of their cults and reduced Greek religion to ritual and idolatry protestant theologians condemned the pagan religion of form with Catholicism as its historical heir For a long time scholars tended to conceptualize Greek religion as one in which belief did not matter and religiosity had to do with observance of rituals and religious practices rather than with worshipers inner investment But what does it mean when Greek texts time and again speak of purity of mind soul and thoughts This book takes a radical new look at the Ancient Greek notions of purity and pollution Its main concern is the inner state of the individual worshipper as they approach the gods and interact with the divine realm in a ritual context It is a book about Greek worshippers inner attitudes towards the gods and rituals and about what kind of inner attitude the Greek gods were envisaged to expect from their worshippers In the wider sense it is a book about the role of belief in ancient Greek religion By exploring the Greek notions of inner purity and pollution from Hesiod to Plato the significance of intrinsic faith based elements in Greek religious practices is revealed thus providing the first history of the concepts of inner purity and pollution in early Greek religion **RSS'S Tryst with Politics** Pralay Kanungo,2025-10-27 This RSS is perhaps the most controversial organization in contemporary India This book explores the mission method and motive of the RSS and suggests that the ideological core of the RSS Hindu Rashtra is political and not cultural It argues that K B Hedgewar the founder of the RSS had a clear political mission while M S Golwalkar his successor despite his saintly appearance and overt distaste for politics sharpened and amplified its ideology Nevertheless deep down the RSS remained political This book goes on to delineate how Balasaheb Deoras the third chief who did not have much of a fancy for culture plunged into Indian politics on the organizational and ideological foundation created by his predecessors Deoras seriously pursued the homogenizing agenda of the RSS to integrate different sections like the Dalits tribals and women into the fold of the Hindu Rashtra Rajendra Singh the successor of Deoras consolidated the political mission by getting control over the State and reaching out to civil society more effectively K S Sudarshan the present chief while attempting to retain a tight control over State power simultaneously reinforces Hindutva The author concludes by arguing that the RSS from Hedgewar to Sudarshan continues its tryst with politics to convert India into a Hindu Rashtra Highly readable and of contemporary relevance this book would be of immense interest to political scientists political sociologists and all those interested in present day India [Encyclopædia of Religion and Ethics: Suffering-Zwingli](#) James Hastings,John Alexander Selbie,Louis Herbert Gray,1922 Scope theology philosophy ethics of various religions and ethical systems and relevant portions of anthropology mythology folklore biology psychology economics and sociology **Manual of the Christian Faith: Or, Religious Truths Generally Believed by Evangelical Christians** Whitman Peck,1872

International Handbook of Violence Research Wilhelm Heitmeyer, John Hagan, 2005-08-12 An international manual is like a world cruise a once in a lifetime experience All the more reason to consider carefully whether it is necessary This can hardly be the case if previous research in the selected field has already been the subject of an earlier review or even several competing surveys On the other hand more thorough study is necessary if the intensity and scope of research are increasing without comprehensive assessments That was the situation in Western societies when work began on this project in the summer of 1998 It was then too that the challenges emerged any manual especially an international one is a very special type of text which is anything but routine It calls for a special effort the state of the art has to be documented for selected subject areas and its presentation made as compelling as possible The editors were delighted therefore by the cooperation and commitment shown by the eighty one contributors from ten countries who were recruited to write on the sixty two different topics by the constructive way in which any requests for changes were dealt with and by the patient response to our many queries This volume is the result of a long process It began with the first drafts outlining the structure of the work which were submitted to various distinguished colleagues Friedheim Neidhardt of Berlin Gertrud Nunner Winkler of Munich and Roland Eckert of Trier to name only a few supplied valuable comments at this stage
