Myth and Reality Mircea Eliade,1968 *Narrative, Social Myth and Reality in Contemporary Scottish and Irish Women's Writing* Tudor Balinisteanu,2009-10-02 This book offers an original interdisciplinary analysis of the relations between myth identity and social reality involving elements of narratology theory linguistics philosophy anthropology and social theory harnessed to support an argument firmly located in the area of literary criticism This analysis yields a fairly extensive reinterpretation of the concept of myth which is applied to the examination of the relationship between narrative and social reality as represented in texts by contemporary Scottish and Irish women writers The main theoretical sources are Mikhail Bakhtin s theories of heteroglossia Jacques Derrida s theories of citationality and Judith Butler s theories of subjectivity The analysis framework developed in the book uses these theories to create a new way of understanding how literary texts change readers worldviews by enticing them to accept alternative possibilities of cultural expression of identity and social order The texts analysed in this book reconfigure naturalised stories that have become normative and constraining in conveying identities and visions of legitimate social orders The book s focus on feminine identities places it alongside feminist analyses of reconstructions of fairy tales myths or canonical stories that establish what counts as legitimate feminine identity Studied here for the first time together the writers whose texts form the interest of this book continue the revisionist work begun by other women writers who engage with the male generated literary philosophical and humanist tradition They share a view of narratives as tools for continually negotiating our identities social worlds and socialisation scenarios While the high level theoretical discourse of the first part of the book requires specialised knowledge the second part of the book offering close readings of the texts is both lively and accessible and should engage the interest of the general reader and academic alike This book is written for all those who are interested in the power words have to hold sway over our inner and outer social worlds

Myth and Religion William Nicolson,1892 **PROCESS AND REALITY** ALFRED N. WHITEHEAD,1929 **Myth, Symbol and Reality** Alan Olson,1982-03 Do myths and symbols have anything at all to tell us about reality Or do they simply deserve to be relegated to the realm of fantastic unreality The essayists in this volume deploy all the critical tools available in the task of taking myth and symbol seriously They are not willing to consign the use of the symbolic to the logician or to relinquish the mythical to the comparative anthropologist as something of historical interest only Instead they strive for that difficult position that is guided by criticism but is still open to wonder in the face of what myth and symbol offer in terms of enrichment meaning and self transcendence Myth and the American Experience N,1973 Myth and Reality ,1987
