Myth Mythmaking:

The Aesthetics of Mythmaking in German Postwar Culture André Fischer, 2024-03-15 Myths are a central part of our reality But merely debunking them lets us forget why they are created in the first place and why we need them Andr Fischer draws on key examples from German postwar culture from novelists Hans Henny Jahnn and Hubert Fichte to sculptor and performance artist Joseph Beuys and filmmaker Werner Herzog to show that mythmaking is an indispensable human practice in times of crisis Against the background of mythologies based in nineteenth century romanticism and their ideological continuation in Nazism fresh forms of mythmaking in the narrative visual and performative arts emerged as an aesthetic paradigm in postwar modernism Boldly rewriting the cultural history of an era and setting in transition *The Aesthetics of Mythmaking in German Postwar Culture* counters the predominant narrative of an exclusively rational *Vergangenheitsbewältigung* coming to terms with the past Far from being merely reactionary the turn toward myth offered a dimension of existential orientation that had been neglected by other influential aesthetic paradigms of the postwar period Fischer s wide ranging transmedia account offers an inclusive perspective on myth beyond storytelling and instead develops mythopoesis as a formal strategy of modernism at large *Myth and Mythmaking* Henry Alexander Murray, 1960 *Historicizing Myths in Contemporary India* Swapna Gopinath, Rutuja Deshmukh, 2023-02-03 This book examines cinematic practices in Bollywood as narratives that assist in shaping the imagination of the age especially in contemporary India It examines historical films released in India since the new millennium and analyses cinema as a reflection of the changing socio political and economic conditions at any given period The chapters in *Historicizing Myths in Contemporary India* *Cinematic Representations and Nationalist Agendas in Hindi Cinemas* also illuminate different perspectives on how cinematic historical representations follow political patterns and market compulsions giving precedence to a certain past over the other creating a narrative suited for the dominant narrative of the present From Mughal e Azam to Padmaavat and Bajirao Mastani to Raazi the chapters show how creating history out of myths validate hegemonic identities in a rapidly evolving Indian society The volume will be of interest to scholars of film and media studies literature and culture studies and South Asian studies

Hatina, 2008-08-18 The second title in a proposed five volume work volume two following on from the volume on Mark s Gospel concentrates on Matthew s Gospel Contributors consider the function of embedded scripture texts in the context of the Gospels written and read heard in their early Christian settings The project is wide ranging with essays on the function of scripture in the compositional history of the gospels and the collection is broad in scope as a result of current interest in the integration of methods especially historical and narrative ones Advancements over the last 20 years in the study of genre and narrative criticism have left a void in the study of the function of embedded biblical texts in the Gospels This collection of essays will move the study of scripture within scripture forwards **Myths and Myth-Makers: Old Tales and**
