**Open-Air Rock-Art Conservation and Management** Timothy Darvill,Antonio Batarda Fernandes,2014-06-20 While much has been achieved in understanding and managing weather effects and erosion phenomena affecting ancient imagery within the relatively protected environments of caves and rock shelters the same cannot be said of rock art panels situated in the open air Despite the fact that the number of known sites has risen dramatically in recent decades there are few examples in which the weathering and erosion dynamics are under investigation with a view to developing proposals to mitigate the impact of natural and cultural processes Most of the work being done in different parts of the world appears to be ad hoc with minimal communication on such matters between teams and with the wider archaeological community This richly illustrated book evaluates rock art conservation in an holistic way bringing together researchers from across the world to share experiences of work in progress or recently completed The chapters focus on a series of key themes documentation projects and resource assessments the identification and impact assessment of weathering erosion processes at work in open air rock art sites the practicalities of potential or implemented conservation interventions experimentation and monitoring programs and general management issues connected with public presentation and the demands of ongoing research investigations Consideration is given to the conservation of open air rock art imagery from many periods and cultural traditions across the Old and New Worlds This timely volume will be of interest to conservators managers and researchers dealing with aesthetic and ethical issues as well as technical and practical matters regarding the conservation of open air rock art sites

**Guiding Spirits (Veritas)** Michele L. Sayre,2023-06-17 GUIDING SPIRITS VERITAS The beauty of poetry is that we try to express with the fewest words possible the entirety of life and our natures and what it is like for us to live upon this planet Words become a song that we sing out into the universe trying to reach out to like minded souls It is our nature to express ourselves and share who we are with the cosmos There s a certain fearlessness attached to a poem when it s presented to the world There s always that one iota of fear where the poet feels that they are alone in their views and someone else will not get them at their most basic level of humanity Poetry is saying Here I am universe Take me as I am I hope you love me but if that cannot happen I will be satisfied if you just don t ignore me To be heard is to matter and that is all any of us want to fulfill the wish that our lives matter That what we think and feel and hope matters to someone other than ourselves This book is an exploration and experiencing of the world around us through the poet s eyes when she was much younger than she is now Through any age we all experience the same emotions desires wants dreams and just a heart felt wish that we matter to someone in this universe even if it s ourselves POETRY EXCERPT FROM THE BOOK Sweet Music Like the truest violin my heart sings in me It quivers and vibrates with my love for thee It shivers and shakes and begins anew This pulse in my heart it sings just for you An enchanting melody that follows me round not a more haunting melody can ever be found You are that violin and I am your bow Stroking you touching you loving you so The hardness the softness the shimmering air fills with sweet music because I m with you there It resonates and rings with the love we ve found My world is just music it rings with our sound I know our last note will never be played because I
