*Educational Psychology* Robert E. Slavin, 1997. This edition continues to have in depth practical coverage with a focus on the intentional teacher. It presents up to the minute research that a reflective intentional teacher can apply. An intentional teacher according to Slavin is one who constantly reflects on his or her practice and makes instructional decisions based on a clear conception of how these practices affect students. To help readers become intentional teachers, the author models best practices through classroom examples and offers questions to guide the reader.
