Gnosticism, Platonism and the Late Ancient World Kevin Corrigan, Tuomas Rasimus, 2013-07-25 This Festschrift honors the life and work of John D Turner Charles J Mach University Professor of Classics and History at the University of Nebraska at Lincoln on the occasion of his 75th birthday Professor Turner s work has been of profound importance for the study of the interaction between Greek philosophy and Gnosticism in late antiquity This volume contains essays by international scholars on a broad range of topics that deal with Sethian Valentinian and other early Christian thought as well as with Platonism and Neoplatonism and offer a variety of perspectives spanning intellectual history Greek and Coptic philology and the study of religions

Dictionary of Modern American Philosophers John R. Shook, 2005-01-01 The Dictionary of Modern American Philosophers includes both academic and non academic philosophers and a large number of female and minority thinkers whose work has been neglected It includes those intellectuals involved in the development of psychology pedagogy sociology anthropology education theology political science and several other fields before these disciplines came to be considered distinct from philosophy in the late nineteenth century Each entry contains a short biography of the writer an exposition and analysis of his or her doctrines and ideas a bibliography of writings and suggestions for further reading While all the major post Civil War philosophers are present the most valuable feature of this dictionary is its coverage of a huge range of less well known writers including hundreds of presently obscure thinkers In many cases the Dictionary of Modern American Philosophers offers the first scholarly treatment of the life and work of certain writers This book will be an indispensable reference work for scholars working on almost any aspect of modern American thought

Studies in Contemporary Metaphysics Reinhold Friedrich Alfred Hoernlé, 1920

Wisdom's Odyssey Peter A. Redpath, 2021-11-01 This book establishes that the ancient Greeks had a prevailing method of doing philosophy which was rooted in philosophical realism Through extensive historical and philosophical analysis it demonstrates that this method was challenged in ancient times by an apocryphal notion of philosophy which eventually became confused with philosophical reasoning and was passed on to posterity through the work of Christian theologians until it was called into question by leading thinkers of the thirteenth century It shows how this thirteenth century challenge influenced the growth of the Renaissance humanist movement and how this movement in turn passed on to modernity the same apocryphal notion of philosophy as a rhetorical theology of allegorical prefiguration

Conflict and Contest in Nietzsche's Philosophy Herman Siemens, James Pearson, 2018-11-15 While Nietzsche's works and ideas are relevant across the many branches of philosophy the themes of contest and conflict have been mostly overlooked
 Conflict and Contest in Nietzsche's Philosophy redresses this situation arguing for the importance of these issues throughout Nietzsche's work The volume has three key lines of inquiry Nietzsche's ontology of conflict Nietzsche's conception of the agon and Nietzsche's warrior philosophy Under these three umbrellas is a collection of insightful and provocative essays considering among other topics Nietzsche's understanding of resistance his engagement with classical thinkers alongside his contemporaries including Jacob Burckhardt his views on language metaphor and aphorism and war revolt and terror In bringing together such topics Conflict and Contest in Nietzsche's Philosophy seeks to correct the one-sided tendencies within the existing literature to read simply hard and soft analyses of conflict Written by scholars across the Anglophone and the European traditions within and beyond philosophy this collection emphasises the entire problematic of conflict in Nietzsche's thought and its relation to his philosophical and literary practice
