Integrated Organic Farming Systems: Approach for Efficient Food Production and Environmental Sustainability
Subhash Babu,Sanjay Singh Rathore,Vinod Kumar Singh,Raghavendra Singh,2023-10-24

Researchers and policy planners are in search of a solution to address the twin challenges of maximizing agricultural production while maintaining improving ecosystem sustainability Enhancing farm productivity is needed in certain regions of the world to satisfy local food consumption and farmers needs Linear economy based input intensive conventional agriculture CAPS has increased production output but has not made agriculture more sustainable Henceforth a farming system that aims to reduce the adverse impact on the environment as well as enhance agricultural productivity by reducing environmental footprint and improving soil health and economic wellbeing is needed in the present day Integrated organic farming systems IOFS involve residue recycling bio intensive cropping high tech horticulture mushroom dairy poultry fishery apiary etc can improve the ecosystem health and augment the income and livelihood security of the growers Worldwide IOFS are gaining popularity due to improved ecosystem services and improving farm productivity and livelihood security Hence IOFS a circular economy based reuse recycle repair agricultural production system can be alternatives to energy intensive inputs based on CAPS Hence there is an urgent need to select suitable IOFS models with proper resource optimization for productivity maximization and better ecosystem sustainability Undoubtedly IOFS reduces energy use from synthetic agrochemicals but food production in IOFS is highly dependent on fossil fuel energy that must be addressed urgently Despite the enormous positive outlooks there are several challenges in the adoption of IOFS models The IOFS is a multiproduct oriented production system that needs multi specialties and marketing Capacity building and infrastructure development are also great challenges in adopting IOFS Moreover the development of IOFS models is highly individualistic and location specific production systems need proper resource optimization and characterization Hence the development of site specific IOFS models to maintain food quality with productivity improvement is a genuine issue to the researchers which needs to be addressed Papers original research review letter to the editors spanning across the discipline related to the IOFS development in sustainable ways are encouraged for inclusion in this research topic Papers should explicitly cover ecosystem restoration farm productivity and profitability and could have a specific focus on the following areas the IOFS models for enhancing productivity and environmental quality through an integrated management approach aiming at the maximization

of use efficiencies the management of biomass waste to restore the soil fertility and ecosystem services the effect of integrated management practices on greenhouse gas emissions and energy use Critical approaches for climate smart food production systems *Conceptualizing Digital Responsibility for the Information Age* Daniel Beverungen, Christiane Lehrer, Matthias Trier, 2025-05-12 This book is the first volume of proceedings from the 18th International Conference on Wirtschaftsinformatik held in Paderborn Germany in 2023 In the context of the global trend toward digitalization it presents the results of innovative high quality research in the field of information systems and digital transformation The book covers a broad range of topics including digital innovation business analytics artificial intelligence and IT strategy each of which has and will continue to have significant impacts on companies individuals and societies alike **The Annual for Facilitators, Trainers, and Consultants**, 1985 **Managing New Office Technology** Calvin H. P. Pava, 1983 The first book to combine in one account the technical and social aspects of office organization Eric Trist The new electronic office technology has been much praised for the increased speed precision and memory capacities it offers office management But do these improvements mean increased productivity Not by themselves says Calvin Pava Equally important to the high performance of office work will be its organization not only of clerical support personnel and equipment but of management and staff professionals This book is the first to define the organizational challenge posed to management by new office technology Calvin Pava breaks the myth that these are simple issues for technical solution alone Based on research conducted at the Harvard Business School *Managing New Office Technology* takes a method of organization design with a proven track record in industrial settings and shows how this organizational self analysis and self directed change can be applied successfully to offices Using sociotechnical design a method that takes into account both the technology and structure of work Pava shows how changes in an office s organization can lead to more satisfying and productive results The goal and the proven achievement of sociotechnical design is to organize people work and their tools so their efforts are efficiently complementary At the core of *Managing New Office Technology* are three detailed case studies that show the principles of sociotechnical design at work These examples of the planning designing and implementing of organizational change in an order processing customer service department a computer systems firm and a payroll department show step by step how to apply the procedure across a broad range of different activities Unlike other books on the subject which deal principally with clerical work and show little interest in bridging the gap between theory and application *Managing New Office Technology* extends to address the work of management and staff professionals and shows how reorganizing is done Moreover recognizing that outside interests have a stake in the effects of technological development in offices Pava provides a framework for addressing the concerns of such groups as displaced professionals minorities middle managers clerical support staff old workers young workers and organized labor A glossary of terms and an afterword by Eric Trist originator of the sociotechnical approach round out this long awaited work For managers concerned about astute deployment of new office technology and for those

who are also anxious about the larger implications for society of the growth of automation in offices Calvin Pava's *Managing New Office Technology* will be required reading *Theories of Organizational Structure and Process* John B. Miner, 1982
