**Meditation, Systematic and Practical** C. M. Tchen, 1966     Your 3 Second Meditation into God'S Light of Ecstasy Is Here! Bill Dugger, 2010-12-17 In book volume one we learned how organic life was created We also learned our purpose in life and where we were going Now in book two we were going much deeper into advanced meditation skills In order to create we need to get into the Light of Ecstasy in a flash while working God awareness is what we need In book two we learn how to put into action what we learned in the 541 pages of book one Our request for guidance from God must be from Light of your soul to the Light of God We must be within the Light wordlessly to understand God Well actually experience ecstasy in book two with the 3 second meditation skills we learned in book one     The Dialogical Spirit Amos Yong, 2014-10-22

Contemporary proposals for Christian theology from postliberalism to Radical Orthodoxy and beyond have espoused their own methodological paradigms Those who have ventured into this domain of theological method however have usually had to stake their claims vis a vis trends in what may be called the contemporary post al age whether of the postmodern post Christendom post Enlightenment post Western or postcolonial varieties This volume is unique among offerings in this arena in suggesting a way forward that engages on each of these fronts and does so from a particularistic Christian perspective without giving up on Christian theology s traditional claims to universality This is accomplished through the articulation of a distinctive dialogical methodology informed by both pentecostalism and evangelicalism one rooted in the Christian salvation history narrative of incarnation and Pentecost that is yet open to the world in its many and various cultural ethnic religious and disciplinary discourses Amos Yong here engages with twelve different interlocutors representing different ecumenical religious and disciplinary perspectives The Dialogical Spirit thus not only proffers a model for Christian theological method suitable for the twenty first century global context but also exemplifies this methodological approach through its interactions across the contemporary scholarly academic and theological landscape     **Meditations and exercises for the illuminative way [extr. from Liber exercitiorum spiritualium triplicis viae] tr. by K.D.
