Personal Journeys:

Personal Journeys Peter A. Fiore, 2001-04 This volume contains nine personal essays on six prominent classic authors written for the average reader who is minimally familiar with the authors probably just heard of them by name and who would like an introduction to these literary figures and their works The authors have been carefully chosen to represent the early classical Italian and British tradition Dante Alighieri John Donne John Milton and the 20th century British and American tradition Gerard Manley Hopkins Evelyn Waugh Flannery O Connor The underlying argument of the book is that the authors Christian faith gave impetus to their creative output Although all the observations about the authors and their works are fully researched and based on Professor Fiore's years as professor and critic a conscious effort has been made to avoid esoteric research problems and their consequent footnotes in an effort to present a readable and intimate approach to the writers The book is ideal for the general reader the undergraduate student and the lover of great literature Narratives of Academics'

Personal Journeys in Contested Spaces Namrata Rao, Anesa Hosein, Ian M. Kinchin, 2023-05-18 Narratives of Academics Personal Journeys in Contested Spaces provides theoretically informed personal narratives of 11 emerging and established leaders in learning and teaching in Australia Finland New Zealand Singapore the UK and the USA The academics narratives focus on how the individuals have navigated to their current leadership role in learning and teaching whilst negotiating contested identities such as gender and physical and social marginalised spaces such as interstitial middle leadership positions These international narratives provide unique perspectives on the sense making of academics as they reflect on their learning and teaching leadership journey and how these journeys are shaped by their contested identities and the marginalised spaces they inhabit Often such identities and spaces are not recognised in higher education which may lead to even more isolating and challenging leadership journeys The book contributes to our understanding of the subjective experiences that academics encounter in their leadership journeys Further the personal narratives included in the book capture how the contested identities and marginalised spaces influence the learning and teaching leadership practices in various educational cultural and national contexts
