Personality and Democratic Politics Paul M. Sniderman, 2024-06-14 How does a personality characteristic such as self esteem become translated into political convictions How do individual differences in self esteem affect who becomes a political activist and a political leader These are among the major questions addressed in this study the first of its kind to be based on large scale samples of both political leaders and ordinary citizens Drawing on the voluminous research of social psychologists on self esteem and integrating the dynamic theories of Freud and his followers with the functional and social learning approaches Professor Sniderman advances new theories to account for the complex connections between personality political beliefs and political leadership In 1972 the American Political Science Association gave Professor Sniderman s original work in this field on which this book is based the E E Schattschneider Award for the best doctoral dissertation in the field of American government and politics This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1975 Personality and Democratic Politics Paul M. Sniderman, 1971 Revitalizing Political Psychology William Ascher, Barbara Hirschfelder-Ascher, 2004-11-16 The goal of this book is to recapture the diminished roles of affect psychological needs and the psychodynamic mechanisms that are crucial for understanding political behavior by explaining and extending the contributions of Harold D Lasswell the dominant figure in political psychology in the mid twentieth century Although Lasswell was best known for applying psychodynamic theories to politics this book also demonstrates how his framework accommodated for cognitive processes and social interactions ranging from communications to policy making The authors use Lasswell s contributions and the debates over his ideas as a springboard for examining current policy political and leadership issues Revitalizing Political Psychology presents and extends four aspects of Lasswell s contributions to the field the psychodynamic mechanisms drawn from psychoanalytic theory the use of symbol associations to understand political propaganda the analysis of democratic character for both the public and the elites and the structure of belief systems In so doing the authors link personality and political communication theory to democratic practice The authors also critique leadership studies using Lasswell s concerns over the risks to democratic accountability and the current preoccupation with strengthening the roles of charismatic and transformational leaders Intended for researchers practitioners and students in the areas of political and historical psychology political strategy and political communication the book s emphasis on psychodynamics also appeals to psychoanalysts and the material on leadership appeals to professionals in management and industrial organizational psychology **Personality In Politics** Thomas, David, 2023-10-01 Personality in Politics Understanding the Role of Character in Governance explores the profound impact of individual character on political

Handbook of Political Science: Micropolitical theory Fred I.

Greenstein, Nelson W. Polsby, 1975 **Power and Personality** Harold Dwight Lasswell, 2009-05-01 This book concerns the wanting getting and giving of power Recent advances in medicine sociology and psychology have deepened our understanding of the motives skills and experience that operate between leaders and those who are led Since power is about decision making it figures not only in official institutions but in other organizations including political parties pressure groups trade associations business enterprises trade unions and many other types of organizations A general theory of the political personality is set forth here Lasswell describes the process by which power becomes a value of first importance and the way appropriate skills in exercising power are acquired He shows that special political types such as agitators or administrators are

related to basic types of character that contribute to how they lead. Finally, his analysis offers original perspectives to understand democratic leadership. Lasswell offers definite suggestions for perfecting self-observatories in national and world affairs and for forming democratic personalities, selecting and training democratic leaders, and reducing destructive conflicts in human relationships. Power and Personality followed the author's 1930 work Psychopathology and Politics, which was widely hailed for its pioneering approach. Power and Personality reevaluated the entire issue of the relationship between psychology and politics in the light of subsequent experience and scientific developments since publication of that earlier work. Lasswell's ideas continue to carry great weight and persuasiveness. Harold D. Lasswell served as Ford Foundation Professor of the Social Sciences at Yale University, Distinguished Professor of Policy Sciences at John Jay College of the City University of New York, and as professor of political science at the University of Chicago. He was a past president of the American Political Science Association and author of many books covering the full range of political and policy research. Peter deLeon is director of the doctorate program and professor at the School of Public Affairs, University of Colorado Denver. In 2000, he received the distinguished Harold D. Lasswell Award from the Policy Studies Organization. He is the author of Thinking about Political Corruption, Democracy and the Policy Sciences, and Advice and Consent.

The Annals of the American Academy of Political and Social Science, 1975-07 Political Behavior of the American Electorate Elizabeth A. Theiss-Morse, Michael W. Wagner, William H. Flanigan, Nancy H. Zingale, 2018-01-30. The 2016 elections took place under intense political polarization and uncertain economic conditions to widely unexpected results. How did Trump pull off his victory? Political Behavior of the American Electorate, Fourteenth Edition, attempts to answer this question by interpreting data from the most recent American National Election Study to provide a thorough analysis of the 2016 elections and the current American political behavior. Authors Elizabeth Theiss-Morse and Michael Wagner continue the tradition of Flanigan and Zingale to illustrate and document trends in American political behavior with the best longitudinal data available. The authors also put these trends in context by focusing on the major concepts and characteristics that shape Americans' responses to politics. In the completely revised Fourteenth Edition, readers will explore getting out the vote efforts and the reasons people voted the way they did, as well as the nature and impact of partisanship, news media coverage, and other issues in 2016, all with an eye toward understanding the trends that led up to the historic decision.

Power and Personality Harold D. Lasswell, 2017-09-14. This book concerns the wanting, getting, and giving of power. Recent advances in medicine, sociology, and psychology have deepened our understanding of the motives, skills, and experience that operate between leaders and those who are led. Since power is about decision making, it figures not only in official institutions but in other organizations, including political parties, pressure groups, trade associations, business enterprises, trade unions, and many other types of organizations. A general theory of the political personality is set forth here. Lasswell describes the process by which power becomes a value of first importance and the way appropriate skills in exercising power are acquired. He shows that special

political types such as agitators or administrators are related to basic types of character that contribute to how they lead. Finally his analysis offers original perspectives to understand democratic leadership. Lasswell offers definite suggestions for perfecting self observatories in national and world affairs and for forming democratic personalities selecting and training democratic leaders and reducing destructive conflicts in human relationships. Power and Personality followed the author's 1930 work Psychopathology and Politics which was widely hailed for its pioneering approach. Power and Personality reevaluated the entire issue of the relationship between psychology and politics in the light of subsequent experience and scientific developments since publication of that earlier work. Something to Believe In Rupesh Shah, David Murphy, Malcolm McIntosh, 2017-09-29

In a world where trust in politicians corporations and the processes that determine our lives continues to dwindle this innovative book brings together research case studies and stories that begin to answer a central question for society: How we can create organisations institutions groups and societies that can nurture trusting relationships with one another and among individuals. Something to Believe In provides a fresh take on the corporate responsibility debate based as it is on the work of key global thinkers on corporate social responsibility along with a raft of work developed from collaborations between the New Academy of Business and the United Nations Volunteers UK Department for International Development and TERI Europe in countries such as Brazil Nicaragua Ghana India Sri Lanka Bangladesh Lebanon Nigeria the Philippines and South Africa. The focus is on business and particularly how deeper more systemic changes to current ways of understanding and undertaking business can and have been enacted in both developed countries and in nations where the Western concept of CSR means nothing. The market based model of economic thinking the increasingly distrusted globalisation project which threatens to sweep all before it is challenged by many of the contributions to this book. The book tells stories such as the mobilization of civil society in Ghana to bring business to account the reorientation of a business school to focus on values the life cycle of ethical chocolate the accountability of the diamond business in a war zone the need to reinvent codes of conduct for women workers in the plantations and factories of Nicaragua a Philippine initiative to economically empower former Moslem liberation fighters and the development of local governance practices in a South African eco village. The book is split into four sections. Through Some Looking Glasses contains short thought provoking pieces about the issues of trust belief and change from writers including Thabo Mbeki Malcolm McIntosh and a reprinted piece from E M Forster. Section Two asks how it will be possible to believe in our corporations and provides new approaches from around the world on how space is being opened up to found businesses that are able to create trust. Section Three examines the role of auditing in fostering trust. Corporations continue to attempt to engender trust through their activities in philanthropy reporting and voluntary programmes. But post Enron et al even the most highly praised corporate mission statements are tarnished. Can social and environmental audits of corporate reports codes and practices assuage our doubts about boardroom democracy?

Section Four examines alternative forms of accountability transparency and governance from around the world and offers some different ways of thinking about the practice of creating trust in society Something to Believe In provides a host of fascinating suggestions about redefining and renewing the underlying deal between society and its organizations It will become a key text for students thinkers and practitioners in the field of corporate responsibility **The Public** ,1904
