## **Perspectives On Attributional Processes:**

**Perspectives on Attributional Processes** John H. Harvey, Gifford Weary, Ben Harris, 1981      Perspectives on Attributional Processes John H. Harvey, Gifford Weary, Ben Harris, 1981      **Attribution Theory** Mark Martinko, 2018-05-04  
With Special Contributions from Bernard Weiner Ph D UCLA and Robert Lord Ph D Univ of Akron Attribution theory is concerned with people's causal explanation for outcomes successes and failures The basic premise is that beliefs about outcomes are a primary determinant of expectations and consequently future behavior Attribution theory articulates how this process occurs and provides a basis for understanding that translates into practical action Attribution Theory An Organizational Perspective serves as a primary sourcebook of attribution theory as it relates to management and organizational behavior The text provides an integrated explanation of the role and function of attribution theory in the organization This important new book contains original empirical research relating attributions to leader evaluations reactions to information technologies management of diverse work groups achievement and executive succession and power The contributors are from a variety of disciplines including management psychology education educational psychology and sociology      *Attribution* Gifford Weary, Melinda A. Stanley, John H. Harvey, 2012-12-06 This book initially was conceived in 1986 by Weary and Harvey as a revision and update of their 1981 *Perspectives on Attributional Processes* published by Wm C Brown Dubuque Iowa However the extensive nature of recent work on attributional processes and the opportunity to collaborate with Melinda Stanley as a coauthor led to a plan to develop a more comprehensive work than the 1981 book It definitely is an amalgam of our interests in social and clinical psychology It represents our commitment to basic theoretical and empirical inquiry blended with the applications of ideas and methods to understanding attribution in more naturalistic settings and as it unfolds in the lives of different kinds of people coping with diverse problems of living The book represents a commitment also to the breadth of approach to attribution questions epitomized by Fritz Heider's uniquely creative mind and work in pioneering the area To us the attributional approach is not a sacrosanct school of thought on the human condition It is rather a body of ideas and findings that we find to be highly useful in our work as social JH and GW and clinical GW and MS psychology scholars It is an inviting approach that as we shall describe in the book brings together ideas and work from different fields in psychology all concerned with the pervasive and inestimable importance of interpretive activity in human experience and behavior      Perspectives on Attribution Research and Theory Dietmar Görnitz, David Antal, 1980  
Life-span Perspectives and Social Psychology Ronald P. Abeles, 1987 First Published in 1987 Routledge is an imprint of Taylor Francis an informa company      An Occupational Perspective on Leadership Sandra Dunbar, Kristin Winston, 2024-06-01 An Occupational Perspective on Leadership Theoretical and Practical Dimensions Third Edition is essential for occupational therapy students practicing clinicians and administrators Building upon the 2 previous editions Drs Sandra Dunbar Smalley and Kristin Winston provide an in depth exploration of leadership theories alongside the application

of occupational therapy theoretical models to leadership practice within the occupational therapy profession The Third Edition includes new theoretical perspectives case examples and adapted reflection activities to further meet the needs of students and entry level professionals New chapters address Followership in the context of leadership A systems approach to leadership Shared leadership Transforming health care with leaders for change An Occupational Perspective on Leadership Theoretical and Practical Dimensions Third Edition demonstrates the potential of occupational therapy leadership and encourages the next generation of students and clinicians to advance their understanding and application of occupational therapy and leadership theory for best practices
