*Poetical Dictionary* Lohren Green,2003 Poetry Lohren Green s POETICAL DICTIONARY concludes with chaos and begins with acrobatics In between these he presents us with both a book of words and a cosmos a linguistic gas cloud bounded by the universal and the particular Green s project departs from the traditional dictionary a peculiar contraption of sense and order In the preface he reviews the architectures of these teetering teeming linguistic edifices His attitude towards words is almost that of a material scientist exploding an individual specimen of language bulwark heft oyster purple torpid foreplay in order to ascertain its synthesis of body and concept Organized into SUBJECT WORD PRONUNCIATION ETYMOLOGY and DEFINITION each entry in the POETICAL DICTIONARY makes the traditional dictionary hiccup divulging the stanza within the standard definition and the wiggle of wit in the pronunciation key addressable glow unit of information from pixel

*Notable Encyclopedias of the Seventeenth and Eighteenth Centuries* Frank A. Kafker,1981 General encyclopedias illuminate the culture of an era but they tend to be neglected as a subject of scholarly research This is especially true for the period from 1674 to 1750 Of the more than thirty encyclopedias published in those years the contributors to this book examine nine of the most important paying particular attention to their publishing history editing prose style political and religious views and contents as books of knowledge Seven of them those either in English or French went into at least five editions The other two encyclopedias are Johann Heinrich Zedler s German language Universal lexicon by far the longest European encyclopedia of the period and Gianfrancesco Pivati s Nuovo dizionario the first learned alphabetized Italian encyclopedia to be completed Also at least seven of the nine works deserve notice because they served as models or sources for the Encyclop die The epilogue of this study compares the Encyclop die with the nine predecessors so that the renowned work edited by Diderot and D Alembert can be more accurately evaluated and appreciated once a previously ignored part of its background is clarified This book is a companion to *Notable encyclopedias of the late eighteenth century* eleven successors of the Encyclop die SVEC 315 1994 edited by Frank A Kafker *Studies on Voltaire and the Eighteenth Century* Theodore Besterman,1955 **Studies on Voltaire and the Eighteenth Century** ,1981 *A Classified Catalogue of School, College ... and General Educational Works in Use in the United Kingdom and Its Dependencies in 1876, Etc* Catalogues,1876 *The Homiletic Review* ,1916 *A Catalogue of a Very Extensive Collection of Books in British and Foreign Theology, Ecclesiastical History Etc., Etc* William Straker,1834 **A Bibliography of the Works of Samuel Johnson: 1760-1816** ,2000 *Kirberger's monthly gazette of English literarture* , *Universal Cyclopaedia and Atlas* Charles Kendall Adams,Rossiter Johnson,1901 **THE UNIVERSAL CYCLOPEDIA** ,1899 **A classified catalogue of ... education works in use in the United Kingdom and its dependencies** United Kingdom,1876 *The Universal Cyclopaedia* ,1900 **The Universal Cyclopædia** ,1900 *Catalogue of a Valuable and Useful Collection of Books, in the Various Departments of Science* E. **Volume 2, 1660-1800** George Watson, Ian R. Willison, 1971-07-02 More than fifty specialists have contributed to this new edition of volume 2 of *The Cambridge Bibliography of English Literature*. The design of the original work has established itself so firmly as a workable solution to the immense problems of analysis, articulation and coordination that it has been retained in all its essentials for the new edition. The task of the new contributors has been to revise and integrate the lists of 1940 and 1957 to add materials of the following decade to correct and refine the bibliographical details already available and to reshape the whole according to a new series of conventions devised to give greater clarity and consistency to the entries.
