The need to learn about discipline-specific writing

During a conversation, this question came up: “what should we know to become an effective ESP writing teacher?” I blurted out this answer: “Everything!” I was perhaps thinking of Mary Norris, the copy editor for *The New Yorker* and author of *Between you and me: Confessions of a Copy Queen*. She describes the job of a copy editor as “drawing upon the entire person: not just your knowledge of grammar and punctuation and usage and foreign languages and literature but your experience of travel, gardening, shipping, singing, plumbing, Catholicism, midwesternism, mozzarella, the A train, New Jersey. And in turn it feeds you more experience” (Norris, 2015, p. 12). To me, that’s not too far off from the knowledge base of an LSP writing teacher. “Oh. Come on. That is an insanely lofty and completely unattainable goal”, came the good-humored protest. The protester does have a point. Nobody can know everything. One of the pleasures of being an LSP practitioner and a writing teacher is that there is always something new to learn. What is this next “something new”, though? Since then, I have been thinking about this question. As LSP practitioners who are also researchers, we can look at the literature. There, LSP teacher education researchers have sketched out multiple topic areas that can form our knowledge base (Basturkmen, 2014). We can also look carefully at our classes. When Kuteeva (2013) looked at one of her graduate-level writing classes, for example, she saw many things; one of them was the “very wide spectrum of epistemological traditions... ranging... from lab-based osteoarchaeology to logic-driven philosophy to source-based history or musicology to emerging interdisciplinary fields such as fashion studies or performing arts” her graduate students represented (p. 86). Indeed, having a

Writing in the Academic Disciplines David R. Russell, 2002 To understand the ways students learn to write we must go beyond the small and all too often marginalized component of the curriculum that treats writing explicitly and look at the broader though largely tacit traditions students encounter in the whole curriculum explains David R Russell in the introduction to this singular study The updated edition provides a comprehensive history of writing instruction outside general composition courses in American secondary and higher education from the founding public secondary schools and research universities in the 1870s through the spread of the writing across the curriculum movement in the 1980s through the WAC efforts in contemporary curriculums

[Graduate Writing Across the Disciplines](#) Marilee Brooks-Gillies, Elena Adkins Garcia, Soo Hyon Kim, Katie Manthey, Trixie G Smith, 2020 In *Graduate Writing Across the Disciplines* the editors and their colleagues argue that graduate education must include a

wide range of writing support designed to identify writers needs teach writers through direct instruction and support writers through programs such as writing centers writing camps and writing groups The chapters in this collection demonstrate that attending to the needs of graduate writers requires multiple approaches and thoughtful attention to the distinctive contexts and resources of individual universities while remaining mindful of research on and across similar programs at other universities

Writing in the Academic Disciplines, 1870-1990 David R. Russell,1991 In this singular study David R Russell provides a history of writing instruction outside general composition courses in American secondary and higher education from the founding of public secondary schools and research universities in the 1870s through the spread of the writing across the curriculum movement in the 1980s Russell s task is to examine the ways writing was taught in the myriad curricula that composed the varied structure of secondary and higher education in modern America He begins with the assertion that before the 1870s writing was taught as ancillary to speaking As a result formal writing instruction was essentially training in handwriting the mechanical process of transcribing sound to visual form From this point Russell carefully examines academic writing its origins and its teaching from a broad institutional perspective He looks at the history of little studied genres of student writing such as the research paper lab report and essay examination Tracing the effects of increasing specialization on writing instruction he notes how two new ideals of academic life research and utilitarian service shaped writing instruction into its modern forms Finally he contributes the definitive history of the current writing across the curriculum movement providing a study of the long tradition of other WAC efforts with an analysis of why they have waned
