

Chapter 4¹

Theoretical and Conceptual Frameworks in the Social and Management Sciences

Patrick Ngulube, Elias R Mathipa and Mishack T Gumbo

4.1 Introduction

In this chapter, we consider two research frameworks: conceptual and theoretical. The chapter complements and questions the existing conversations around the theoretical and conceptual perspectives that inform the research process. Thus, the intent in the chapter is both edifying and therapeutic. Although Bak (2004:17) posits that there are a variety of ways of crafting a theoretical framework, for the most part, this chapter will enable researchers to overcome theoretical struggles and appreciate how a research framework might assist them to “interpret and understand the findings of research” within a research framework which makes “sense” of the data” (May, 1993:20). Some authors acknowledge three types of research frameworks, namely, theoretical, practical (Scriven, 1986) and conceptual (Eisenhart, 1991), although practical frameworks are beyond the scope of this chapter.

You will find this chapter useful if you are a postgraduate researcher, a research supervisor, or examiner of theses, as it will assist you to come to terms with the fundamental aspects of theoretical and conceptual frameworks in their diversity, richness and depth. The primary aim is to provide researchers like you, with tools for understanding such analytical research devices in order to appreciate their role and function in social inquiry.

After reading this chapter, you should be able to:

- Identify the key definitions of a conceptual and theoretical framework;
- Select a conceptual and theoretical framework for an inquiry;
- Discuss the context of applying conceptual and theoretical frameworks;
- Articulate differences between a conceptual and theoretical framework;
- Select an appropriate conceptual and theoretical framework for an inquiry;
- Describe the consequences of not employing conceptual and theoretical frameworks; and
- Discuss the use of theoretical frameworks in qualitative traditions.

Research in the social and management sciences does not have a tradition of adequately explicating the notion of conceptual and theoretical frameworks. Consequently, the understanding of the development and use of theoretical and conceptual frameworks may be limited. In fact, some researchers do not fully
