Art of the 20th century Dorothea Eimert,2016-03-09 The 20th century was a revolutionary period in art history In the span of a few short years Modernism exploded into being disrupting centuries of classical figurative tradition to create something entirely new This astoundingly thorough survey of art s modern era showcases all of the key artistic movements of the 20th century from Fauvism to Pop Art featuring illustrative examples of some of the most renowned works of the era along with illuminating companion essays by expert critics and art historians A vivid window into the collective psyche of the modern world s great artists Art of the 20th Century is a must have for any fan of contemporary art

Art and architecture of the late 20th century Dorothea Eimert,2024-11-12 During the second half of the twentieth century in a world transformed by international tensions the centre of artistic creation shifted from Europe to the United States In a world where major countries asserted their power individualism now ruled The art world was a perfect example of this phenomenon even now the emphasis of creativity is placed on the individual instead of the trend Moreover growing globalization and the various types of media have facilitated a multiplication of means and offered artists new possibilities Now at the dawn of the twenty first century everything has the potential to be art and art more than ever is the opportunity to take risks to present and transform almost anything This work invites the reader to discover the diversity of this most recent artistic environment

Avery Index to Architectural Periodicals Avery Library,1997 Peter Kulka Wolfgang Pehnt,Peter Kulka,2005 Text in English and German Early in the 20th century Robert Bosch the founder of the Stuttgart electrical business built a large villa on the hills east of the city It was half Palladian half in the reform style of the period before the First World War The building was to meet the head of the company s need for prestige and to provide a private refuge thanks to the pleasant qualities of its large park and open position The foundation of the same name is now housed in the Villa Bosch but the space available has not been adequate for some time As the company also needed rooms for seminars and other events a decision was taken to build new accommodation next to the villa Seven well known teams took part in a restricted competition including Tadao Ando Richard Meier and Richard Rogers The commission went to Peter Kulka based in Cologne and Dresden He found a convincing solution to the problem of leaving the dominance of the old building untouched and at the same time making the foundation s new accommodation attractive in its own right He came up with a second villa slightly below the first one precise in its volume and minimalist in its resources The building responds impressively to the challenges of the topography the landscape around it and its neighbouring building Kulka s work combines transparency with physical presence structural austerity with poetry This villa suburbana represents a milestone in his career Kulka born in 1937 was a pupil of Selman Selmanagic and worked with Hermann Henselmann Hans Scharoun and in various partnerships before setting up his own practice in 1979 He has been seen as a member of the German architectural avant garde since his Dresden parliament building 1991 94
