*Primate Behavior and Sociobiology* A.B. Chiarelli, Robert Corruccini, 2012-12-06 The VIIIth International Congress of the International Primatological Society was held from 7 through 11 July 1980 in Florence Italy under the auspices of the host institution the Istituto di Antropologia of the University of Florence More than 300 papers and abstracts were presented either at the main Congress or in 14 pre Congress symposia the week earlier so scheduled to avoid conflicting with either the main invited lectures or the contributed paper sessions This volume consists of the contributed papers concerning primate behavior with special emphasis on those social aspects that reflect on or affect primate biology Clearly this is one of the more important and popular subdisciplines in primatology today We have thus

restricted the subject in agreement with the publishers in order to ensure a successful and useful volume that is likely to be generally noticed and widely available as these up to date contributions deserve Furthermore we have compiled this volume in a fairly new way for congress proceedings In view of space limitations and the need to guarantee a high quality and sufficiently specialized book we subjected all manuscripts to a four level internal review process and selected only the best 23 of the 50 submissions We favored natural observation work over captive studies This rejection rate of 54% exceeds that of almost all reviewed scholarly journals
