

## Chapter 37

# Language Report Welsh

Delyth Prys and Gareth Watkins

**Abstract** In this chapter, based on Prys et al. (2022), an update to the META-NET White Paper (Evas 2014), we present Language Technology (LT) for the Welsh language, providing an overview of the status of Welsh in Wales and a summary of the Welsh writing system and typology. We describe key tools and our recommendations for Welsh LT and associated resource development.

### 1 The Welsh Language

Welsh is mainly spoken in Wales, together with a small population in Argentina. A minoritised language (Prys 2006), Welsh is considered “vulnerable” (Moseley 2010). Welsh has official status in Wales (National Assembly for Wales 2011). The 2011 census reported that there were 562,000 Welsh speakers in Wales (19% of the population). The Welsh Government aim to almost double that figure by 2050 and recognise that technology is key to this ambition (Welsh Gov. 2017).

The Welsh alphabet contains 29 letters, including eight digraphs (e. g., ch) and the letter j borrowed from English to represent the borrowed /dʒ/ consonant phoneme. V, x and z are not used in Welsh, but are included with the alphabet for computer use as they often appear in named entities such as foreign placenames. Welsh belongs to the insular Celtic branch of Indo-European languages. It is verb initial, following a VSO order. It has consonant mutations at the beginning of words. Accented characters are common over vowels. Welsh has a continuum of other registers, with colloquial or informal registers differing markedly from the standard written form. It has many local dialects, with the main difference between those of north and south Wales. Welsh has two methods of verb formation, utilising concise forms or periphrastic forms, using auxiliary verbs. Guidelines to the latest version of the modern Welsh orthography, first standardised in 1928, were published in 1987 (Prys 2006). In 2021 a new Welsh Orthography Panel was established by the Welsh Government, which aims to resolve minor inconsistencies in the orthography.
