,1929 WEIZAC: An Israeli Pioneering Adventure in Electronic Computing (1945-1963) Leo Corry,Raya
Leviathan,2019-08-16 The book tells the unique story of WEIZAC an early computer built by a new nation in the early 1950s
It was created in Israel even though the feasibility of this project was actually close to null when it was initially conceived in
1946 and unlike most of the early computer projects was privately financed mainly by the Jewish world community The book
draws on a wealth of documents and historical insights to reveal the processes and powers that led to the successful
completion of the project and as well as its actual impact on scientific activities in Israel and on the rise of a local computing
community Based on archival data the book shows how a synergy of personal dedication together with an organizational and
national mission that links the Zionist vision with science and technology for the Jewish people helped to achieve a well
defined goal The book offers intriguing insights and refreshing perspectives to all readers interested in the Zionist movement
