## **Rainforest Relations:**

**RAIN FOREST RELATIONS** Melissa Leach, 1994-08-17 Centering on the Mende speaking people living around the Gola forest reserves in Sierra Leone *Rainforest Relations* shows how local communities and individuals in rainforest regions use and view forest resources amid international environmental scrutiny and changing socioeconomic conditions Leach argues that if both the rainforests and their human inhabitants are to survive conservation policies must refocus to address local interests in general and women's interests in particular Drawing on anthropological fieldwork in Mende communities Leach details day to day interaction with the environment examining labor and tenure arrangements gathered products and their markets hunting and fishing practices and crop types She focuses on different women's and men's experiences and their access to use and control of the land She shows how links between local women and their environment depend on dynamic gender relations in agriculture forest resource use and social life This gender study is placed in the context of both an overview of West African conservation agendas over the past century and an examination of the strengths and weaknesses of ecofeminism and other currently popular approaches to women and the environment BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved *Rainforest Relations* Melissa Leach, 2021-06-24 With environmental change and conservation in West Africa's tropical rainforests becoming topics of increasing political and academic interest this book brings a fresh set of perspectives to the debate those of the forest dwellers themselves Based on her detailed field research in the Mende communities around Gola North Forest reserve and surveying the recent debates and literature concerning forest conservations and current analytical approaches to gender and the environment Melissa Leach examines the importance of rainforest resources to the local economy and social relations and shows that neither an understanding of forest use and change nor adequate conservation policies can be achieved without a concern for gender

Tropical Rainforests Eldredge Bermingham, Christopher W. Dick, Craig Moritz, 2005-08 Synthesizing theoretical empirical analyses of the processes that help shape these unique ecosystems *Tropical Rainforests* looks at the effects of evolutionary histories past climate change ecological dynamics on the origin maintenance of tropical rainforest communities

**Ecofeminist Natures** Noel Sturgeon, 2016-01-08 Examining the development of ecofeminism from the 1980s antimilitarist movement to an internationalist ecofeminism in the 1990s Sturgeon explores the ecofeminist notions of gender race and nature She moves from detailed historical investigations of important manifestations of US ecofeminism to a broad analysis of international environmental politics Rainforest Organizations Steve Shipp, 1997 Rainforests home to more than half of all plant and animal species on earth while covering less than six percent of the world's land area have intricate ecosystems with multitudes of animal and plant species including humans Yet deforestation of the rainforests has greatly increased in the past half century Ten thousand years ago rainforests covered an estimated 9.5 million square miles but as millions of trees are lost daily to agricultural and commercial development scientific studies project the reduction of

rainforests to six million square miles by the year 2000 and 35 million square miles by 2050 Numerous scientific political conservationist public information and other organizations have been formed to address every aspect of rainforests over 120 worldwide can be found in this directory Each entry lists the address phone number contact person e mail or Internet address if available mission statement or goals publications and often the group s history and current projects All listed agencies and organizations readily accept queries for information about rainforests and most invite participation in their activities and projects

**Ecological Nostalgias** Olivia Angé, David Berliner, 2020-11-01 Introducing the study of econostalgias through a variety of rich ethnographic cases this volume argues that a strictly human centered approach does not account for contemporary longings triggered by ecosystem upheavals In this time of climate change this book explores how nostalgia for fading ecologies unfolds into the interstitial spaces between the biological the political and the social regret and hope the past the present and the future

**Ecology and Management of a Neotropical Rainforest** Sylvie Gourlet-Fleury, Jean-Marc Guehl, Olivier Laroussinie, 2004 In 1982 the Sylvicultural research on the natural forest stands of French Guiana operation was initiated and since then the Paracou experimental site has been a favourite place for basic logical research concerning the structure dynamics diversity and functioning of the lowland rainforest of coastal French Guiana The site offers more than 100 hectares of plots where trees are fully mapped and an experimental design combining logging and thinning with undisturbed controls allowing assessment of the impact of well documented disturbances on the characteristics of various forest stands and tree populations In this book 40 authors summarize their experience and results at Paracou Topics include i forest structure and floristic composition ii ecosystem level carbon dynamics iii light requirements patterns of water use and root symbiotic status of the main species iv gene flow and genetic diversity v regeneration strategies growth behaviour and dynamics of stands before and after sylvicultural operations vi modelling forest dynamics A final chapter discusses the practical lessons for forest management that have resulted from research operations at Paracou This book is intended for advanced students and researchers in tropical forestry and ecology as well as forest managers and decision makers concerned by the potential impact of human actions on tropical forest ecosystems

**Nontimber Forest Products in the United States** Eric T. Jones, Rebecca Jean McLain, James F. Weigand, 2002 A quiet revolution is taking place in America s forests Once seen primarily as stands of timber our woodlands are now prized as a rich source of a wide range of commodities from wild mushrooms and maple sugar to hundreds of medicinal plants whose uses have only begun to be fully realized Now as timber harvesting becomes more mechanized and requires less labor the image of the lumberjack is being replaced by that of the forager This book provides the first comprehensive examination of nontimber forest products NTFPs in the United States illustrating their diverse importance describing the people who harvest them and outlining the steps that are being taken to ensure access to them As

the first extensive national overview of NTFP policy and management specific to the United States it brings together research from numerous disciplines and analytical perspectives such as economics mycology history ecology law entomology forestry geography and anthropology in order to provide a cohesive picture of the current and potential role of NTFPs The contributors review the state of scientific knowledge of NTFPs by offering a survey of commercial and noncommercial products an overview of uses and users and discussions of sustainable management issues associated with ecology cultural traditions forest policy and commerce They examine some of the major social economic and biological benefits of NTFPs while also addressing the potential negative consequences of NTFP harvesting on forest ecosystems and on NTFP species populations Within this wealth of information are rich accounts of NTFP use drawn from all parts of the American landscape from the Pacific Northwest to the Caribbean From honey production to a review of nontimber forest economies still active in the United States such as the Ojibway harvest of plants recounted here the book takes in the whole breadth of recent NTFP issues including ecological concerns associated with the expansion of NTFP markets and NTFP tenure issues on federally managed lands No other volume offers such a comprehensive overview of NTFPs in North America By examining all aspects of these products it contributes to the development of more sophisticated policy and management frameworks for not only ensuring their ongoing use but also protecting the future of our forests
