Shifting Involvements:

Shifting Involvements Albert Otto Hirschman, 2002 **Shifting Involvements** Albert O. Hirschman, 2002-01-27 With chapters on private concerns and the public arena consumer disappointment hostility toward new wealth and the frustration of participation in public life this text provides an overall view of private interest and public action **Shifting Involvements** Albert O. Hirschman, 1982 **Liberalism and the Moral Life** Nancy L. Rosenblum, 2006-01-12 An essential collection of essays by leading political thinkers on liberalism at the end of the twentieth century Liberalism and the Moral Life presents the thoughts of twelve prominent scholars redrawing the map of liberalism Richard Ashcraft Benjamin R Barber Seyla Benhabib William Galston Amy Gutmann Stephen Holmes George Kateb Steven Lukes Susan Moller Okin Nancy Rosenblum Judith N Shklar and Charles Taylor In now classic essays that go beyond the conventional defense of liberalism based on moral skepticism or the possibility of discovering neutral principles these writers consider possibilities for reinvigorating liberal thought They offer fresh arguments for the moral status of individualism and argue that distinctively liberal virtues and practices not only sustain democracy but also undergird what should be considered a moral life Moving beyond theory the authors point to a variety of institutional contexts within liberal democracy that provide moral education and opportunities for expressing commitment to substantive moral values *Public and Private* Maurizio Passerin D'Entrèves, Ursula Vogel, 2005-08-11 The public and private distinction is essential to our moral and political vocabularies as it continues to structure our social and legal practices Public and Private provides a multidisciplinary perspective on this distinction which has been at the centre of controversial debate in recent years The focus of the debate has been on delineating acceptable boundaries between public and private in economic social and cultural spheres What is the nature and scope of citizenship What are the implications of new reproductive technologies And what is the fate of state sovereignty in a globalised world economy At first glance these questions may appear unrelated yet they all raise underlying and serious concerns regarding the scope and proper boundaries between the public and the private Public and Private will stimulate the current debate with its original approach and provide a valuable resource for all those interested in the role the public and private play in structuring our societies **Another Liberalism** Nancy L. Rosenblum, 1987 Another Liberalism contributes an original perspective to debates about the nature and foundations of liberal thought In it Nancy Rosenblum describes the dynamic of romanticism and liberalism as one of mutual opposition and reconciliation She argues that romanticism sees liberalism as cold contractual and aloof And conventional liberal legalism disdains romanticism's longing for all that is personal unique and expressive We learn however that romanticism chastened by its excesses and frustrated by its failures can come home to liberalism We also learn that liberalism can accommodate individuality and expressivity reclaiming what it had repressed Rosenblum creates a typology of romantic reconstructions of liberal thought heroic individualism communitarianism and a new face of pluralism The author draws on nineteenth and twentieth century philosophy and

literature on Thoreau Humboldt Constant Stendhal and Mill among others and on contemporary political theorists for whom romanticism is a source not only of aversion to liberalism but also of resources for reform

Neopluralism Andrew S. McFarland, 2004 Many of the basic issues of political science have been addressed by pluralist theory which focuses on the competing interests of a democratic polity their organization and their influence on policy Andrew McFarland shows that this approach still provides a promising foundation for understanding the American political process

The Ideas That Shaped Post-War Britain David Marquand, Anthony Seldon, 2016-10-20 The seventy years since the end of the Second World War have seen dramatic changes in Britain's cultural intellectual and political climate Old class allegiances have been challenged by new loyalties to gender ethnicity religion or lifestyle and a new sensibility of self fulfilment sometimes hedonistic sometimes altruistic has been born

Building Civic Capacity, 2001 The authors of this volume argue that urban education is in urgent need of reform and that although there have been plenty of innovative and even promising attempts to improve conditions most have been doomed The reason for this they agree lies in the failure of our major cities to develop their civic capacity The ability to build and maintain a broad social and political coalition across all sectors of the urban community in pursuit of a common goal
