Decoding Spacetime Eric Carlson,2010-11-08 This is a book about science religion and being yours and mine The study of being is called Ontology Our culture is dominated by a naturalist ontology The question is does ontology include a supernatural component Or is that idea a relic of our primeval past sort of like appendix and adenoids parts that can be excised from the body of our belief system The author argues for the primacy of the transcendent supernatural ontology by means of two books the book of nature and the book of transcendency the Bible each containing its own portion of the evidence Mr Carlson argues for the following The universe represents a small portion of Gods ontology a small reality devoted to redemption The signet of redemption is the number 7 its appearance within chronology is deliberate instructive and compelling The Creation Week account reflects a two fold metaphor 1 space time itself was created to support the redemptive act and 2 mankinds history will unfold in a series of seven ages later quantified as millennia The interval between Adam and Abraham literally filled one redemptive bi millennium but the catastrophic effects of 3 realities the Cainite civilization Noah and the break up of Pangaea contribute to the appearance of myth as viewed by the uniformitarian geologist for whom catastrophes appear invisible The 2nd bi millennium Abraham to Messiah was also fulfilled exactly in redemptive time The termination of our age is imminent and dependent upon the chronology of Israel mankinds chronograph A detailed chronology of the history of Israel is flavored with the redemptive signet especially 70 yrs or 70 heptads of yrs By decoding Israels history in redemptive time and employing the single concept of the favor of God the author derives a Biblical based proof that modern Israel is the same and identical state founded by Samuel in 1096 BC Three independent proofs of this foundational date are provided These proofs show that the Monarchy existed for exactly 511 yrs which period is exactly equal to 73 heptads Israel is an heptadic state The author concludes that the redemptive corollary to Israels ontology is also proven we have actually entered the end times and the events associated with the last days will soon unfold Because the reality of Israel is visible to all it is apparent that the redemptive offer made to mankind is also real and visible such as that appearing in John 3 16 John 6 40 and Romans 10 9 13 There is much to learn about our world Start now Tomorrow may be too late

Decoding the Apocalypse Ernest Verity,2003-10 **Decoding Neolithic Atlantic and Mediterranean Island Ritual** George Nash,Andrew Townsend,2016-03-31 What constitutes an island and the archaeology contained within Is it the physicality of its boundary between shoreline and sea Does this physical barrier extend further into a watery zone Archaeologically can islands be defined by cultural heritage and influence Clearly and based on these few probing questions islands are more than just lumps of rock and earth sitting in the middle of a sea or ocean An island is a space which when described in terms of topography landscape form and resources becomes a place A place can sometimes be delineated with barriers and boundaries it may also have a perimeter and can be distinguished from the space that surrounds it The 16 papers presented here explore the physicality and levels of insularity of individual islands and island groups during

prehistory through a series of case studies on Neolithic island archaeology in the Atlantic and Mediterranean regions For the eastern Atlantic the Atlantic Archipelago papers discuss the sacred geographies and material culture of Neolithic Gotland Orkney and Anglesey and the architecture of and ritual behavior associated with megalithic monuments in the Channel Islands and the Scilly Isles The Mediterranean region is represented by a different type of Neolithic both in terms of architecture and material culture Papers discuss theoretical constructs and ritual deposition cave sites ritualized and religious aspects of Neolithic death and burial metaphysical journeys associated with the underworld in Late Neolithic Malta and the possible role of its Temple Period art in ritual activities and palaeoenvironmental evidence from the Neolithic monuments of Corsica The cases examined illustrate the diversity of the evidence available that affords a better understanding of the European Mediterranean Neolithic island society not least the effects of interaction contact and or geographical insularity isolation all factors that are considered to have consequences for the establishment and modification of cultures in island settings [FCC Record](#) United States.
