Second Edition, Revised and Augmented, with Illustrations. Tenth Thousand](#) Charles Darwin, 1874 **On Knowing** Richard P. McKeon, 2017-02-09 As a philosopher Richard McKeon spent his career developing Pragmatism in a new key specifically by tracing the ways in which philosophic problems arise in fields other than philosophy across the natural and social sciences and aesthetics and showed the ways in which any problem pushed back to its beginning or taken to its end is a philosophic problem The roots of this book On Knowing The Social Sciences are traced to McKeon s classes where he blended philosophy with physics ethics politics history and aesthetics This volume the second in a series leaves behind natural science themes to embrace freedom power and history which McKeon argues lay out the whole field of human action The authors McKeon considers Hobbes Machiavelli Spinoza Kant and J S Mill show brilliantly how philosophic methods work in action via analyses that do not merely reduce or deconstruct meaning but enhance those texts by reconnecting them to the active history of philosophy and to problems of ethics politics and history The waves of modernism and post modernism are receding Philosophic pluralism is now available fully formulated in McKeon s work spreading from the humanities to the social sciences *Immortalaeism* Vul Impera, 2020-02-28 Vul Impera investigates the fundamental philosophical aspects of power demonstrating fundamental aspects of the relationship of power itself and the relationship of power to human nature Examining what power is Vul proceeds to discuss what power is to people and in a convincing argument illustrates how to increase in power and also to determine if one is powerful In the second writing of *Immortalaeism* Vul illuminates the philosophy of empire Concerned with the element of rulership which was discussed in power Vul provides a beginning for the philosophy of empire which he simply uses as an empirical demonstration of power indicating it is written to be an appendix demonstrating power in organisation Lastly Vul relates a spiritual book called *Immortalae* which was produced through a spiritual endeavour that lasted thirteen years from the time Vul was eighteen Attempting many religions experiences and philosophies Vul communicates his spirituality which he has founded and established as his own religion which in eventuality includes all three written works into a paradigm that Vul labels

Immortalism Vault provides spiritual answers that surround the notion of the holy grail in the final book All three writings are transmitted through his personal experience on the subjects and are a product of his life circumstances **Ethics and "De Intellectus Emendatione"**.
