## **Power Politics:**

Power, Politics, and Culture Edward W. Said, 2007-12-18 Edward Said has long been considered one of the world's most compelling public intellectuals taking on a remarkable array of topics with his many publications. But no single book has encompassed the vast scope of his stimulating erudition quite like *Power Politics and Culture*. A fascinating oblique entry into the mind of one whose own writings are a brilliant questioning chronicle of contemporary culture and values. Nadine Gordimer. In these twenty-eight interviews, Said addresses everything from Palestine to Pavarotti, from his nomadic upbringing under colonial rule to his politically active and often controversial adulthood and reflects on Austen, Beckett, Conrad, Naipaul, Mahfouz, and Rushdie, as well as on fellow critics Bloom, Derrida, and Foucault. The passion Said feels for literature, music, history, and politics is powerfully conveyed in this indispensable complement to his prolific life's work.

**Great Power Politics in Greater Eurasia** Rahman Dag, Özgür Tüfekçi, 2022-12-27 Great power politics is a practical reality of world politics and it happens on a daily basis regardless of which international system we witness. This book seeks to emphasize the ways these great power politics emerge within greater Eurasia. Most researchers consider China becoming powerful enough to counterbalance the US and possible power dynamics among the rising powers such as China, India, China, Russia, and China, Japan. In this sense, the book categorizes the battlegrounds in their power politics with three aspects: national, regional, international conflicts, institutions, alliances, and projects. **Media Power Politics** David L. Paletz, Robert M. Entman, 1981. *Religious Appeals in Power Politics* Peter S. Henne, 2023-10-15 *Religious Appeals in Power Politics* examines how states use or attempt to use confessional appeals to religious belief and conscience to advance political strategies and objectives. Through case studies of the United States, Saudi Arabia, and Russia, Peter S. Henne demonstrates that religion, although not as high profile or well-funded a tool as economic sanctions or threats of military force, remains a potent weapon in international relations. Public policy analysis often minimizes the role of religion, favoring military or economic matters as the important arenas of policy debate. As Henne shows, however, at transformative moments in political history, states turn to faith-based appeals to integrate or fragment international coalitions. Henne highlights Saudi Arabia's 1960s rivalry with Egypt, the United States's post-9/11 leadership in the global war on terrorism, and the Russian Federation's contemporary expansionism, both to reveal the presence and power of calls for religious unity and to emphasize the uncertainty and anxiety such appeals can create. *Religious Appeals in Power Politics* offers a bold corrective to those who consider religion as tangential to military or economic might. Power Politics in Africa Olusola Ogunnubi, Samuel Oyewole, 2020-11-09 This collection of essays examines the subject of power politics in Africa, paying special attention to the interests of African regional powers as well as their capabilities and strategies in the international arena. It provides a theoretical bridge between concerns for militarised national interest, perpetual distrust, and insecurity, struggles for power, and hegemony in power politics, and the spirit of pan-African solidarity, brotherhood, consensus, cooperation, and integration. It

is on these bases that this volume offers rich empirical insight into leading regional powers in Africa with special attention given to Nigeria and South Africa It serves to contribute African perspectives to the field of International Relations particularly regarding power politics which is important in terms of Africanising the narratives of a subject matter that is largely considered as Eurocentric in African and other non Western societies
