## **Political Conditionality:**

Political Conditionality Georg Sorensen,2013-11-05 Political conditionality involves the linking of development aid to certain standards of observance of human rights and liberal democracy in recipient countries Although this may seem to be an innocent policy it has the potential to bring about a dramatic change in the basic principles of the international system putting human rights first means putting respect for individuals and rights before respect for the sovereignty of states

**Aid and Political Conditionality** Olav Stokke,2013-04-03 Foreign aid has increasingly become subject to political conditionality In the 1980s some institutions made aid dependent upon the recipient countries economic policy reforms Market liberalisation was the primary instrument and objective In the 1990s such conditionality was brought one step further aid was now linked to political reforms affecting recipient countries governing systems requiring democracy human rights and good governance This volume looks at these developments and considers the conditionality policies of several European aid donors Such policies are also considered from recipient perspectives both from the Third World and Russia and the issue is also considered from a historical perspective

**The Political Economy of Development and Underdevelopment in Africa** Toyin Falola,Jessica Achberger,2013-06-07 While Africa is too often regarded as lying on the periphery of the global political arena this is not the case African nations have played an important historical role in world affairs It is with this understanding that the authors in this volume set out upon researching and writing their chapters making an important collective contribution to our understanding of modern Africa Taken as a whole the chapters represent the range of research in African development and fully tie this development to the global political economy African nations play significant roles in world politics both as nations influenced by the ebbs and flows of the global economy and by the international political system but also as actors directly influencing politics and economics It is only through an understanding of both the history and present place of Africa in global affairs that we can begin to assess the way forward for future development

*The Europeanization of Central and Eastern Europe* Frank Schimmelfennig,Ulrich Sedelmeier,2005 This book demonstrates the importance of the credibility and the costs of accession conditionality for the adoption of EU rules in Central and Eastern Europe

*The Road to the European Union* Jacques Rupnik,Jan Zielonka,2003-11-08 This book is a timely and solid portrait of modern China from the First Opium War to the Xi Jinping era Unlike the handful of existing textbooks that only provide narratives this textbook fashions a new and practical way to study modern China Written exclusively for university students A level or high school teachers and students it uses primary sources to tell the story of China and introduces them to existing scholarship and academic debate so they can conduct independent research for their essays and dissertations This book will be required reading for students who embark on the study of Chinese history politics economics diaspora sociology literature cultural urban and women s studies It would be essential reading to journalists NGO workers diplomats government officials businessmen and travellers

**Democracy and Political Change in**

**the Third World** Jeff Haynes,2003-09-02 This book examines the experience of democracy in developing countries such as Mexico Zambia India and Indonesia The book will be of interest to scholars of Comparative Politics Third World Politics and Development studies

**The EU and Member State Building** Soeren Keil,Zeynep Arkan,2014-12-05 This book critically examines the process of statebuilding by the EU focusing on its attempts to build Member States in the Western Balkan region This book analyses the European Union s policies towards and the impact they have upon the states of the Western Balkans and assesses how these affect the nature of EU foreign policy To this end it focuses on the tools and mechanisms that the EU employs in its enlargement policy and examines the new instruments of direct intervention in Bosnia and Kosovo political coercion in the case of Croatia and Serbia in relation to the International Criminal Tribunal for the former Yugoslavia and stricter conditionality in the Western Balkan countries The book discusses the key aim of this special form of statebuilding which is to establish functional liberal democratic states in Albania Bosnia and Herzegovina Croatia Kosovo Macedonia Montenegro and Serbia in order for them to join the EU and to cope with the responsibilities and pressures of membership in the future However the authors argue that while the EU sees itself as an international actor that promotes and protects liberal democratic values norms and principles its experiences in the Western Balkans demonstrate how the EU s actions in the region have undermined the basic principles of democratic decision making such as the European support for impositions in Bosnia and international law Kosovo and have consequently contributed to new tensions see police reform in Bosnia and the tensions between Kosovo and Serbia and dependencies This book will be of much interest to students of statebuilding EU politics global governance and IR Security Studies in general

*Economic and Political Reform in Developing Countries* Oliver Morrissey,Frances Stewart,2016-07-27 This volume explores the interactions between economic and political reform in developing countries and eastern Europe Over the past decade there have been significant moves both towards economic reform essentially involving a greater role for the market and a lesser role for the state and political reform with important steps taken towards democratic forms of government In some areas political change preceded economic reform as in much of eastern Europe while elsewhere economic and political reform have gone hand in hand often as a result of external pressure The essays cover a wide range of experience of economic and political reforms from which some general lessons emerge The most important one is that political and economic reforms interact in complex ways with political reform often acting to slow down or even reverse economic reform Secondly it is shown that the state has an important role to play in guiding reform and preventing market excesses

**Foreign Aid and Political Reform** G. Crawford,2000-12-06 The linkage of development aid to the promotion of human rights democracy and good governance was a striking departure in the post cold war foreign policies of Northern donor governments Uniquely this book provides a systematic and comparative investigation of policies and practices in the 1990s to promote political reform in Southern recipient countries by four donors the governments of Sweden the United Kingdom and the United States plus the European

Union The use of both carrot and stick that is democracy assistance and aid sanctions is examined and sharp criticism of current practice offered

**Political Conditionality** Jason Tulk,2000 *The Use of Political Conditionality in the EU's Relations with Third Countries* Karen Elizabeth Smith,1997 *Political Rights Under Stress in 21st Century Europe* Wojciech Sadurski,2006 Examining the uncertainty of the role and scope of traditional political rights in the 21st century s threat of terrorism this book reflects on the appropriate scope and strength of protection of political rights and analyses issues such as party closures political rights of minorities and democratization

**The IMF, the World Bank, and Economic Policy in Bosnia** David Woodward,1998 **Aid as a Tool for Promotion of Human Rights and Democracy** Hilde Beate Selbervik,1997 1 1 Sources and methodology Conditionality and the Ambitions of Governance Joel T. Shelton,2014-11-18 Shelton investigates the conditionality regime directed at transforming societies inside EU candidate states He offers a new understanding of conditionality that incorporates the social and subjective dimensions of the European project locating the ambitions and limits of conditionality in the ideas of political economy

**Economic Reform in Africa's New Era of Political Liberalization** ,1993 The Institutionalisation of Human Rights in Southern Africa Institutt for menneskerettigheter,1993 Rights by Lawrence Tshuma **Rethinking the Euro-Mediterranean Political and Security Dialogue** Rosa Balfour,2004 *Conditioning Relations* ,2008 Conditioning relations extends the debate concerning the feasibility of the use of foreign assistance to leverage political reforms in developing countries It centers the investigation on the factors influencing the success or failure of a political conditionality approach This project views conditionality as a bargaining process between rich country donors and developing world recipients in which the parties trade aid for reform This research combines both quantitative and qualitative methodologies in an effort to expand on the work done by scholars such as Gordon Crawford and Olav Stokke After developing a general bargaining model and drawing out a number of critical hypotheses from the literature on the application of conditionality a statistical analysis is deployed which includes all cases of the use of political conditionality from 1990 to 1999 This investigation is followed up by in depth historical process tracing of two important cases of the application of political conditionality Cameroon and Malawi Conclusions include the finding that political conditionality is most effective when close coordination exists between donors
