Revolve Devos:

The Rise and Fall of the Bible Timothy Beal,2011-02-16 A professor of religion offers an engrossing and excellent look at how the Good Book has changed and changed the world through the ages Publishers Weekly starred review In a lively journey from early Christianity to the present this book explores how a box of handwritten scrolls became the Bible and how the multibillion dollar business that has brought us Biblezines and Manga Bibles is selling down the Book s sacred capital Showing us how a single official text was created from the proliferation of different scripts Timothy Beal traces its path as it became embraced as the word of God and the Book of books Christianity thrived for centuries without any Bible there was no official canon of scriptures much less a book big enough to hold them all Congregations used various collections of scrolls and codices As the author reveals there is no original Bible no single source text behind the thousands of different editions on the market today The farther we go back in the holy text s history the more versions we find In calling for a fresh understanding of the ways scriptures were used in the past the author of *Biblical Literacy* offers the chance to rediscover a Bible and a faith that is truer to its own history not a book of answers but a library of questions

Rape Culture, Purity Culture, and Coercive Control in Teen Girl Bibles Caroline Blyth,2021-02-10 In this fascinating book Caroline Blyth takes a close look at Bibles marketed to teen girls and asks how these might perpetuate harmful gender stereotypes that lie at the heart of rape culture The author considers the devotionals commentaries and advice sections placed throughout these Bibles which offer teen girl readers life advice on topics such as friendships body image and how to navigate romantic relationships Within these discussions there is a strong emphasis on modesty purity and sexual passivity as markers of young women s godliness Yet as the author argues these gendered ideals are prescribed to readers using rape supportive discourses and the tactics of coercive control Moreover the placement of these various editorial inserts within the pages of sacred scripture gives them considerable power to reinforce deeply harmful ideologies about gender sexuality and sexual violence Given the seeming popularity of these Bibles among Christian teen girls the need to dismantle their damaging rhetoric is especially urgent This book will be of particular interest to those studying the Bible religion gender and theology as well as the general reader

Handbook of Japanese Popular Culture Richard Gid Powers, 1989-06-26 Born out of the editor's inability to find a suitable book for teaching the subject this is a welcome title a fine contribution in a field where works in English are seriously lacking Choice The Handbook of Japanese Popular Culture provides a convenient and efficient guide to the prevalent ways of life recreations and artistic creations of contemporary Japan Designed for the general reader as well as the specialist in Japanese culture The areas explored are those that have proven to be of durable interest to the Japanese such as sports science fiction and popular music as well as passing fads and fancies The extremely readable essays contributed by specialists in the field provide a wealth of interesting information including a survey of the historical development of the topic under discussion with special attention paid to the most useful published works in the field followed by a guide to the research collections and reference works that should be consulted by those wishing to deepen their knowledge of the subject Exploring the most salient aspects of Japanese popular culture the chapters include such topics as popular architecture new religions popular performing arts film television comics and mystery literature The editor's introduction suggests that the study of popular culture as a discipline with its own unique subject matter and methodology represents a form of protest against the concept of culture as a selective tradition consisting of the best that has been thought and said This comprehensive survey of Japanese popular culture will be an essential addition to all libraries and a
