and examines the intersection of social and material concerns from the Palaeolithic Age to the present day Part One discusses a range of important general issues beginning with an overview of the recent role of gender and gender relations in our appropriation of past societies After introducing the debate about feminist or gender archaeology Sorensen examines archaeology's concern with the sex gender distinction the nature of negotiation and feminist epistemological claims in relation to archaeology In Part Two the author focuses on the materiality of gender exploring it through case studies ranging from prehistory to contemporary society Food dress space and contact are examined in turn to show how they express and negotiate gender roles This illustrated textbook will be essential reading for students and scholars in archaeology anthropology material culture studies and women's studies

*Gender and Material Culture in Historical Perspective* Moira Donald, Linda Hurcombe, 2000-09-30 Material culture is not a subject which has to date attracted much attention from historians whose usual source material is the written word This volume shows just how illuminating the study of artifacts and documentation concerning the acquisition and meaning of artifacts can be for the study of history in any period Ranging from the use of clothing as votive offerings in ancient Greece to the function of reproductive technology in the 20th century the scope of this volume is excitingly dismissive of traditional chronologies and disciplinary boundaries Gender historians will not be surprised to find the historical meaning of many artifacts to be permeated by gender difference

*Gender and Material Culture in Historical Perspective* NA NA, 2014-01-14 Material culture is not a subject which has to date attracted much attention from historians whose usual source material is the written word This volume shows just how illuminating the study of artifacts and documentation concerning the acquisition and meaning of artifacts can be for the study of history in any period Ranging from the use of clothing as votive offerings in ancient Greece to the function of reproductive technology in the 20th century the scope of this volume is excitingly dismissive of traditional chronologies and disciplinary boundaries Gender historians will not be surprised to find the historical meaning of many artifacts to be permeated by gender difference

### **Fashioning Femininity for War** Amanda

Mae Willey,2015 In 1942 the U S Army and Navy announced the creation of their respective women s military services the WAAC WAC and the WAVES Although American women had served alongside the military in past conflicts the creation of women s military corps caused uproar in American society Placing women directly into the armed services called into question cultural expectations about masculinity and femininity Thus the women s corps had to be justified to the public in accordance with American cultural assumptions regarding proper gender roles *Fashioning Femininity for War* Material Culture and Gender Performance in the WAC and WAVES during World War II focuses on the role of material culture in communicating a feminine image of the WAC and WAVES to the American public as well as the ways in which servicewomen engaged material culture to fashion and perform a feminine identity compatible with contemporary understandings of femininity Material culture served as a mechanism to resolve public concerns regarding both the femininity and the function of women in the military WAC and WAVES material culture linked their wearers with stereotyped characteristics specifically related to contemporary meanings of femininity celebrated by American society while at the same time associating them with military organizations doing vital war work Ultimately the WAVES were more successful in their manipulations of material culture than the WAC communicating both femininity and function in a way that was complementary to the established gender hierarchy Therefore the WAVES enjoyed a prestigious position in the mind of the American public This dissertation

also contributes to the ongoing historiographical debate regarding World War II as a turning point for women's liberation arguing that while the seeds of women's liberation were sown in women's wartime activities those same wartime women were firmly convinced that their rightful place was in the private rather than the public sphere The war created an opportunity to reevaluate gender roles but it would take some time before those reevaluations bore fruit

*Children in the Ancient Near Eastern Household* Kristine Garroway,2014-10-21 Children were an important part of the ancient Near Eastern household This idea seems straightforward but it can be understood in many ways On a basic level children are necessary for the perpetuation of a household On a deeper level the definitions of child and member of the household are far from categorical This book begins to explore the multiple definitions of child and the way the child fits within a household It examines what membership in the household looks like for children and what factors contribute to it A study addressing what a child is and how a child's gender and social status affect her place in the household is vital to a proper understanding of the ancient Near Eastern household Despite their importance children have long been marginalized in discussions of ancient societies Only recently has this trend begun to change within biblical and ancient Near Eastern scholarship A recent wave of studies especially in relation to the Hebrew Bible has started to address children in their own right In light of the current state of scholarship on children the purpose of this book is threefold First Garroway continues to fill out the picture of the child in the ancient Near East by compiling child centric texts and archaeological realia In analyzing these materials she surveys the relationship between children and ancient Near Eastern society by examining the extent to which structuring forces in a community such as social status and gender contribute to the process of a child's becoming a member of his household and society Finally this information provides a base for future research for example a cross cultural study of children in the ancient Near East in Classical Antiquity Exploring Sex and Gender in Bioarchaeology Sabrina C. truth essentialism history or symbolism the impact of French feminist thinkers such as Irigaray or Kristeva or again critical perspectives dealing with the impact of race gender and class on religion or by deconstructing religious data from a postcolonial critical standpoint or examining the impact of imperialism and orientalism on religion and gender
