*Equity, Equality, and Reform in Contemporary Public Education* Grant, Marquis C.,2018-03-30 Equality and equity are often mischaracterized as interchangeable terms in public education This may explain why efforts towards reform and restructure are often not met with any real measure of success Equity Equality and Reform in Contemporary Public Education provides emerging research on the reformation of education curriculum to provide proportionate opportunities for marginalized students and support for student achievement in public education While highlighting topics such as achievement gaps gender biases and multicultural responsiveness this book explores the theories and applications of different measures of reform to promote fairness among individual students This book is an important resource for educators professionals school administrators researchers and practitioners in the field of education

**Teachers' Monographs** ,1919 [Handbook of Design Research Methods in Education](#) Anthony E. Kelly,Richard A. Lesh,John Y. Baek,2014-07-16 This Handbook presents the latest thinking and current examples of design research in education Design based research involves introducing innovations into real world practices as opposed to constrained laboratory contexts and examining the impact of those designs on the learning process Designed prototype applications e g instructional methods software or materials and the research findings are then cycled back into the next iteration of the design innovation in order to build evidence of the particular theories being researched and to positively impact practice and the diffusion of the innovation The Handbook of Design Research Methods in Education the defining book for the field fills a need in how to conduct design research by those doing so right now The chapters represent a broad array of interpretations and examples of how today s design researchers conceptualize this emergent methodology across areas as diverse as educational leadership diffusion of innovations complexity theory and curriculum research This volume is designed as a guide for doctoral students early career researchers and cross over researchers from fields outside of education interested in

supporting innovation in educational settings through conducting design research School ,1920 Math Lab 2c, Level 6
