Mainland Gordon Hoban,1990 *Inscribing Jingju/Peking Opera* David Rolston,2021-08-09 What was the most influential mass medium in China before the internet Jingju Peking opera Although its actors were commonly thought to have been illiterate written and other inscribed versions of plays became more and more important and varied This book shows how increasing textualization and the resulting fixation of a performance tradition that once privileged improvisation changed the genre It traces from Jingju s birth in the 19th century to the present how texts were used for the production and consumption of this important performance genre and the changes in the concepts of authorship copyright and performance rights that took place during the process The state s desire to police what was performed is shown to have been a major factor in these changes The scope and coverage of the book is already unprecedented but it is also supplemented by an additional chapter on where the plays were performed who performed them and who went to see them available for download online Chicago Commerce ,1923 London Theatre Record ,1987 Ka Palapala ,1923 *Daily Report* ,1998 Chinese Television and National Identity Construction Lauren Gorfinkel,2017-11-03 This book examines music entertainment programmes on China Central Television China s only national level television network as well as on nationally available provincial channels exploring how such programmes project a nuanced image of China s identity and position in the world It shows how the images presented primarily to domestic audiences are in step with China s party state nationalism and at the same time flexible and open to change as China s circumstances change The book contextualises identity construction in the media by examining the development of television in China and the political struggles between provincial and national television stations as well as by foregrounding the historical and contemporary role of musical culture in China s nation building project It discusses the portrayal of the majority Han Chinese and of ethnic minorities and their music which the author argues are shown as fitting with the party state rhetoric of a unitary multi ethnic state It also outlines how the Chinese of Greater China Hong Kong Taiwan Macao and the overseas Chinese are incorporated into a mainland centred Chinese identity In addition it shows how the performances of foreign personalities on the Chinese television stage emphasise foreigners attraction to China the uniqueness of the Chinese nation and Chinese civilisation and the revitalised role of China in the world Overall the book demonstrates how the variations of Chinese identity fit with prevailing political ideologies in China and with the emerging theme of a China centred world Annual Report of the Secretary of Internal Affairs of the Commonwealth of Pennsylvania Pennsylvania. than 30 years since party autonomy was first accepted in Chinese private international law. However, the legal rules provided in legislation and judicial interpretations concerning the application of the party autonomy principle are abstract and open-ended. Without a critical understanding of the party autonomy principle and appropriate interpretations of the relevant legal rules, judges have not exercised their discretionary power appropriately. The party autonomy principle has been applied in a way that undermines its very purpose, that is, to protect the legitimate expectations of the parties and promote the predictability of outcomes in transnational commercial litigation. Jieying Liang addresses the question of how, when, and with what limitations parties' choice of law clauses in an international commercial contract should be enforced by Chinese courts.
