Eagles Over North Africa and the Mediterranean, 1940-1943 Jeffrey Ethell, 2016-03-30 Although the Luftwaffe achieved a great deal of success in North Africa between 1940 and 1943 it was hampered by the constant demand for men and machines elsewhere logistical problems such as a crippling lack of fuel and the harsh desert conditions An impressive selection of photographs from archives and private collections reveal the German and Italian aircraft used and developed in this theatre as well as the people involved With insightful captions and supporting text this offers a fascinating perspective on the Luftwaffe at war

Kampfgeschwader in North Africa and the Mediterranean John Weal,2012-09-20 A detailed history of the Luftwaffe s best twin engined bomber of World War 2 in North Africa and the Mediterranean **Hitler's Northern War** Adam R. A. Claasen,2001 Adolf Hitler had high hopes for his conquest of Norway which held both great symbolic and great strategic value for the Fuhrer Despite early successes however his ambitious northern campaign foundered and ultimately failed Adam Claasen for the first time reveals the full story of this neglected episode and shows how it helped doom the Third Reich to defeat Hitler and Raeder the chief of the German navy were determined to take and keep Norway By doing so they hoped to preempt Allied attempts to outflank Germany protect sea lanes for German ships access precious Scandinavian minerals for war production and provide a launchpad for Luftwaffe and naval operations against Great Britain Beyond those strategic objectives Hitler also envisioned Norway as part of a pan Nordic stronghold a centerpiece of his new world order But as Claasen shows Hitler s grand expectations were never realized Gring s Luftwaffe was the vital spearhead in the invasion of Norway which marked a number of wartime firsts Among other things it involved the first large scale aerial operations over sea rather than land the first time operational objectives and logistical needs were fulfilled by air power and the first deployment of paratroopers Although it got off to a promising start the German effort particularly against British and arctic convoys was greatly hampered by flawed strategic thinking interservice rivalries between the Luftwaffe and navy the failure to develop a long range heavy bomber the diversion of planes and personnel to shore up the German war effort elsewhere and the northern theater s harsh climate and terrain Claasen s study covers every aspect of this ill fated campaign from the 1940 invasion until war s end and shows how it was eventually relegated to a backwater status as Germany fought to survive in an increasingly unwinnable war His compelling account sharpens our picture of the German air force and widens our understanding of the Third Reich s way of war **Hitler's Japanese Confidant** Carl Boyd,1993 In 1940 the US Army Signal Intelligence Service broke the Japanese diplomatic code In 1975 Oshima Hiroshi Japan s ambassador to Berlin during World War II died never knowing that the hundreds of messages he transmitted to Tokyo had been fully decoded by the Americans and whisked off to Washington providing a major source of information for the Allies on Nazi activities **Dive-bomber and Ground-attack Units of the Luftwaffe 1933-1945 : a Reference Source: Units, formation and redesignation, commanders, key operations, codes, emblems** Henry L. covers the final phase of World War 2 in Europe with the German forces on the retreat in Italy and on both the Western and Eastern fronts For the Luftwaffe increasingly short of serviceable aircraft and more importantly trained pilots to fly them it was a period when supremacy over the sky was ceded to the victorious Allies Although the recently introduced jet aircraft promised a great deal in terms of performance against more traditional aircraft types production was limited and their arrival was too late to swing the tide of war in Germany s favour With the might of the Allied bombing fleets appearing regularly over the skies of Germany and with raw materials in particular aviation fuel increasingly scarce the last months of the war represented a struggle for the aircrew where few expected to survive
