PRAISE The editor has done a fine job of assembling a batch of stories filled with attitude and badassery Superheronovels Com Lincoln Crisler has taken pains to choose this myriad collection of stories exploring the theme of Metahumans acting out inhumanely and there are quite a few zingers to this collection This is a collection very much in the vein of Masked by Lou Anders however with a tenebrious and twisted bent to it Fantasy Book Critic Corrupts Absolutely is a great anthology with a concept that never gets old Each of the stories is incredibly unique even the ones that deal with a similar power or theme I had a great time with this and I didn't dislike a single story That's hard to do Highly Recommended Only the Best Sci Fi and Fantasy Lincoln Crisler's compilation is commendable for showing a range of variations on its theme The contributors address the motif from different aspects and genres Aficionados of horror will find several tales to whet their genre appetite Hellnote

Metahuman Deepak Chopra, M.D., 2019-10-01 Is it possible to venture beyond daily living and experience heightened states of awareness Deepak Chopra says that higher consciousness is available here and now Metahuman helps us harvest peak experiences so we can see our truth and mold the universe's chaos into a form that brings light to the world Dr Mehmet Oz attending physician New York Presbyterian Columbia University New York Times bestselling author Deepak Chopra unlocks the secrets to moving beyond our present limitations to access a field of infinite possibilities How does one do this By becoming metahuman To be metahuman however isn't science fiction and is certainly not about being a superhero To be metahuman means to move past the limitation constructed by the mind and enter a new state of awareness where we have deliberate and

concrete access to peak experiences that can transform people's lives from the inside out. Humans do this naturally to a point. For centuries the great artists, scientists, writers, and many so-called ordinary people have gone beyond the everyday physical world. But if we could channel these often bewildering experiences, what would happen? Chopra argues we would wake up to experiences that would blow open your body, mind, and soul. Metahuman invites the reader to walk the path here and now. Waking up, we learn, isn't just about mindfulness or meditation. Waking up to become metahuman is to expand our consciousness in all that we think, say, and do. By going beyond, we liberate ourselves from old conditioning and all the mental constructs that underlie anxiety, tension, and ego-driven demands. Waking up allows life to make sense as never before. To make this as practical as possible, Chopra ends the book with a 31-day guide to becoming metahuman. Once you wake up, he writes, life becomes transformed because pure consciousness, which is the field of all possibilities, dawns in your life. Only then does your infinite potential become your personal reality.

Book Description: MetaHuman Creator (MHC) is an online, user-friendly 3D design tool for creating highly realistic digital humans that can be animated within Unreal Engine (UE) and enhanced with motion capture technology. This means that filmmakers and game developers now have access to a high-quality, affordable solution that was previously only available to specialist studios. This book will focus on using UE5 and MHC from a filmmaker's angle. Firstly, you'll understand how to use the online MHC to create a digital character, changing its facial structure, body type, and clothing. After that, you'll learn all the necessary steps to bring the character into UE5 and set it up for animation. Then, using an iPhone and a webcam to capture face and body movements, you'll mix these motion capture files, refine the animations using the MetaHuman Control Rig, and save these takes to be reused and edited again within the Level Sequencer. On top of that, you'll learn how to create a rendered video file for film production using both the Level Sequencer and a VR Cinematic Camera. By the end of this book, you'll have created your own MetaHuman character, as well as face and body motion capture data, and learned the necessary skills to give your future projects further realism and creative control. What You Will Learn: Create your own bespoke character using MHC. Develop custom faces based on real people. Utilize Blueprints to take control of your digital character. Retarget animations using the Unreal Mannequin. Use DeepMotion and Live Link for complete body and face animation. Use the Control Rig to refine animations. Export and render your character.
