Metaphysical Poetry:

The Varieties of Metaphysical Poetry T. S. Eliot, 2014-03-11 The famed series of Trinity College and Johns Hopkins lectures in which the Nobel Prize winner explored history poetry and philosophy While a student at Harvard in the early years of the twentieth century T S Eliot immersed himself in the verse of Dante Donne and the nineteenth century French poet Jules Laforgue His study of the relation of thought and feeling in these poets led Eliot as a poet and critic living in London to formulate an original theory of the poetry generally termed metaphysical philosophical and intellectual poetry that revels in startlingly unconventional imagery Eliot came to perceive a gradual disintegration of the intellect following three metaphysical moments of European civilization the thirteenth seventeenth and nineteenth centuries The theory is at once a provocative prism through which to view Western intellectual and literary history and an exceptional insight into Eliot s own intellectual development This annotated edition includes the eight Clark Lectures on metaphysical poetry that Eliot delivered at Trinity College in Cambridge in 1926 and their revision and extension for his three Turnbull Lectures at Johns Hopkins University in Baltimore in 1933 They reveal in great depth the historical currents of poetry and philosophy that shaped Eliot s own metaphysical moment in the twentieth century *The Notion of Turning in Metaphysical Poetry* Carmen Dörge, 2018 In Metaphysical Poetry there is an emphasis on religious experience which often touches on diverse kinds of turning Among them are religious conversion a turn to God spatial movement turning in space divine transformation turning from one kind into another musical tuning turning as a requisite for harmony and circular turning Moreover there is a strong link between turning and its realisation through the language of the poems Focusing on John Donne and George Herbert this study explores various aspects of turning as well as their interrelation Dissertation Series Religion and Literature Religion und Literatur Vol 7 Subject Poetry **The Making of T.S. Eliot** Joseph Maddrey, 2009-05-13 This chronological survey of major influences on T S Eliot s worldview covers the poet s spiritual and intellectual evolution in stages by trying to see the world as Eliot did It examines his childhood influences as well as the literary influences that inspired him to write his earliest poetry his life as an American expatriate living in London from 1915 to 1930 including his ill fated marriage and his intellectual engagement with the literary traditions of his new country and the ways in which his intellectual pursuits fostered a spiritual rebirth that simultaneously reflected his past and revealed his future demonstrating how the early Romantic revolutionary became a staunch defender of tradition A Guide to English Literature Kaleem M. Jan, Shabnam Firdaus, 2003 A Guide To English Literature Embraces A Wide Spectrum Of Literary Works In The Field Of The English Novel Drama And Poetry It Is Meant To Enhance The Enjoyment And Understanding Of English Literature Through The Critical Discussion Of Particular Works Of A Large Number Of Writers Including Shakespeare Marlowe Metaphysicals Milton Dryden Pope Wordsworth Coleridge Keats Emily Bronte Hardy Eliot Virginia Woolf E M Forster Hemingway And Mulk Raj Anand **Five Metaphysical Poets** Joan Bennett, *Eight Metaphysical Poets* Jack Dalglish, 1961 Collection of works by Donne

Herbert Carew Crashaw Vaughan King Marvell and Cowley with biographical sketches criticism and notes **Early Modern Authorship and the Editorial Tradition** Aleida Auld,2023-12-12 This volume adds a new dimension to authorship studies by linking the editorial tradition to the transformative reception of early modern authors and their works across time Aleida Auld argues that the editorial tradition provides privileged access to the reception of early modern literature informing our understanding of certain reconfigurations and sometimes helping to produce them between their time and our own At stake are reconfigurations of oeuvre and authorship the relationship between the author and work the relationship between authors and the author s own role in establishing an editorial tradition Ultimately this study recognizes that the editorial tradition is a stabilizing force while asserting that it may also be a source of strange and provocative reconceptions of early modern authors and their works in the present day Scholars and students of early modern literature will benefit from this approach to editing as a form of reception that encompasses all the editorial decisions that are necessary to put forth a text *CLASSICAL LITERATURE AND HISTORY OF ENGLISH LITERATURE (English Book)* Prof. (Dr.) Sangeeta Arora ,Dr. Prabhat Kumar Dixit,Dr. Ashok Kumar ,2023-07-01 Read e Book of CLASSICAL LITERATURE AND HISTORY OF ENGLISH LITERATURE English Book for B A 5th Semester for all UP State Universities Common Minimum Syllabus as per NEP

Poetic Revelations Mark S. Burrows,Jean Ward,Małgorzata Grzegorzewska,2016-08-12 This book explores the much debated relation of language and bodily experience i e the flesh considering in particular how poetry functions as revelatory discourse and thus relates to the formal horizon of theological inquiry The central thematic focus is around a phenomenology of the flesh as that which connects us with the world being the site of perception and feeling joy and suffering and of life itself in all its vulnerability The voices represented in this collection reflect interdisciplinary methods of interpretation and broadly ecumenical sensibilities focusing attention on such matters as the revelatory nature of language in general and poetic language in particular the function of poetry in society the question of Incarnation and its relation to language and the poetic arts the kenosis of the Word and human embodiment in relation to the word enfleshed in poetry **The**

Metaphysical Poets David Reid,2014-06-11 The *Metaphysical Poets* provides an introduction to the work of six strikingly various and original poets Donne Herbert Crashaw Vaughan Marvell and Traherne By closely examining how the poems work the book aims to help readers at all stages of proficiency and knowledge to enjoy and critically appreciate the ways in which fantastic and elaborate styles may express private intensities The emphasis is on the differences covered by the term Metaphysical and on the rich and strange diversity of the poets inner lives The book examines the expressive forms of interiority the characteristic inward turn of Metaphysical wit and compares the wit of its six poets with the non introspective wit of poets such as Cowley the Cavaliers and the Augustans The discussion of each poet is preceded by a Life in which the biographical facts personal cultural and political are treated with a view to illuminating the concerns of the poems
