Methodology And Economics A Critical Introduction:

Methodology and Economics John Pheby, 2015-05-11 The essays in this collection detail the fate of gypsies in the countries of Eastern Europe through the socialist era and pay special attention to the experience of the Nazi holocaust The volume includes essays on Czechoslovakia Yugoslavia Albania Hungary and Romania

The Methodology of Economics Mark Blaug, 1992-07-31 This book is an examination of the nature of economic explanation The opening chapters introduce current thinking in the philosophy of science and review the literature on methodology Professor Blaug then turns to the troublesome question of the logical status of welfare economics giving the reader an understanding of the outstanding issues in the methodology of economics This is followed by a series of case studies of leading economic controversies which shows how controversies in economics may be illuminated by paying attention to questions of methodology A final chapter draws the strands together and gives the author's view of what is wrong with modern economics This book is a revised and updated edition of a classic work on the methodology of economics in which Professor Blaug develops his discussion of the latest developments in macroeconomics general equilibrium theory and international trade theory A new section on the rationality postulate is also added

Measurement, Quantification and Economic Analysis Ingrid H. Rima, 2002-09-11 Editor is well known She is president of the History of Economics Society and has completed a 12 year term as editor of the *Eastern Economics Journal* Work is controversial challenges the relevance of mathematics in economics

Post-Popperian Methodology of Economics Neil de Marchi, 1992-10-31 For much of the last three decades or more economic methodology has been dominated by the work of Karl Popper who advocated the position that science is what it is by virtue of its adherence to certain ideals The methodology of science is therefore not empirical or descriptive but rather a set of rules for producing rational or objective knowledge This volume presents alternatives to an exclusively Popperian methodology its purpose is not to reject Popper but to show there are other ways of construing methodology The book is divided into three parts Part I contains two critical surveys one dealing with the rule based tradition which has had a great influence on economic methodology in the last three decades and the other arguing for the social conditioning of knowledge Part II is concerned with auxiliary hypotheses needed to link rational choice at the social and individual levels Part III follows up on aspects raised in linking rational choice at the social and individual levels by looking at specific issues including rhetoric and economics and gender and economic research

Handbook of Research Methods and Applications in Heterodox Economics The Late Frederic S. Lee, Bruce Cronin, 2016-04-29 Despite the important methodological critiques of the mainstream offered by heterodox economics the dominant research method taught in heterodox programmes remains econometrics This compelling Handbook provides a comprehensive introduction to a range of alternative research methods invaluable for analysing the data prominent in heterodox studies Providing a solid basis for a mixed methods approach to economic investigations the expertly crafted contributions are split into three distinct sections philosophical foundation and research

strategy research methods and data collection and applications Introductions to a host of invaluable methods such as survey historical ethnographic experimental and mixed approaches together with factor cluster complex and social network analytics are complemented by descriptions of applications in practice Practical and expansive this Handbook is highly pertinent for students and scholars of economics particularly those dedicated to heterodox approaches as it provides a solid reference for mixed methods not available in mainstream economics research methods courses

Economic Methodology
Deborah A. Redman, 1989 A comprehensive bibliography of economic methodological works since 1860 this volume includes 2 244 entries divided into two primary sections The first section covers works on economic methodology while Part Two deals with works on the philosophy of science The inclusion of works by philosophers of science reflects the prevalence of references to their works both in contemporary economic literature and throughout the period covered Many of the entries are annotated including the classics in economic methodology almost all of the books and general works in the philosophy of science section All other sections include an introduction to the topic and the articles listed under that heading By collecting these works together in one source for the first time compiler Deborah Redman has performed a major service for students researchers and scholars of economics as well as interested philosophers and other social scientists Part One on methodology is divided into twenty five sections devoted to such issues as the Friedman controversy the is ought dichotomy the role of ethics and values in economics the Cambridge controversy and more Individual economists like Samuelson and Friedman who have had a major influence on the discipline are treated in separate categories In addition individual sections address quantification theory econometrics rationality and the positions of the Austrians the new group of rhetoricians the institutionalists and others Part Two begins by providing introductory texts and background sources for those with little prior exposure to works in the philosophy of science The remaining eleven sections are organized around the philosophies of science that economists have incorporated into their economic philosophies Hence works by and on Karl Popper Thomas Kuhn Imre Lakatos Paul Feyerabend and the German structuralists appear as categories Additional sections cover holism and the Duhem thesis the relationship between the history and philosophy of science and miscellaneous works Author and subject indexes complete the volume

Foundations of Economic Method Lawrence A. Boland, 2020-09-23 Many consider Foundations of Economic Method to be Lawrence Boland s best work This updated edition is radically changed from the original and will be much appreciated by thinkers within economics The book positions methodology vis vis the current practice of economists and is all the better for it Yet another book that not only deserves to be read by those within the field of economic methodology but also by those involved in economics at all Boland is back

[Literary Theory and Criticism](#)
Arun Gupto, 2021-08-30 The book explores key South Asian writings on cultural theory and literary criticism It discusses the dynamics of textual contents rhetorical styles and socio political issues through an exploration of seminal South Asian scholarship in the Humanities and Social Sciences The volume examines concepts and methods of critical studies It also

discusses colonial and postcolonial discourses on art religion nationalism identity representation resistance and gender in the South Asian context The essays are accompanied by textual questions and intertextual discussions on rhetorical creative and critical aspects of the selected texts The exercise questions invite the reader to explore the mechanics of reading about and writing on discursive pieces in South Asian studies Comprehensive and interdisciplinary this textbook will be indispensable for students and researchers of South Asian studies cultural theory literary criticism postcolonial studies literary and language studies women and gender studies rhetoric and composition political sociology and cultural studies SAGE Handbook of Mixed Methods in Social & Behavioral Research Abbas Tashakkori, Charles Teddlie, 2021-06-17 Surveying the differing viewpoints and disciplinary approaches to using mixed methods this volume helps readers explore the answers to a wide range of key questions in the field including Can using mixed methods offset the disadvantages that certain methods have by themselves What criteria can a researcher use to select the best mixed methods design for his or her project and What are the points of agreement and controversy regarding design issues in mixed methods research This breakthrough Second Edition containing all new chapters examines all aspects of mixed methods research across a variety of disciplines Key Features Covers all aspects of inquiry from conceptualizing research to selecting methods analyzing and interpreting data and reporting findings Draws on the work of a mix of internationally recognized researchers as well as new and emerging researchers to provide a diversity of perspectives Gives specific examples from a wide range of disciplines to help readers understand the issues and controversies in this evolving area Presents rich material for discussion and new ideas for implementing mixed methods research to provide readers with a cutting edge resource Provides pedagogical tools such as learning objectives discussion questions and exercises and extensive cross referencing Elgar Companion to Institutional and Evolutionary Economics: L-Z Geoffrey Martin Hodgson, Warren J. Samuels, Marc R. Tool, 1994 **Economists' Interpretations and Applications of Thomas S. Kuhn's Theory of Scientific Revolutions** Thomas Walter Patchak-Schuster, 1994 **Surveys in Modern Economics** Euston Quah, Anthony Chin, 1990 **METU Studies in Development**, 1996 **Economics of Southeast Asia** Siva Ram Vemuri, 1992 Calls for the establishment of an economics specific to the region of South East Asia the only area of the world with successful economics at the present time Includes references The author is a senior lecturer in economics at the Northern Territory University **Why Economists Disagree** David L. Prychitko, 1998 Provides a convenient introduction to heterodox alternatives to neoclassical economics **Pricing Theory in Post-Keynesian Economics** Paul Downward, 1999 This timely book explores the defining features of post Keynesian economics through an examination of pricing and empirically investigates pricing behaviour from the post Keynesian point of view It uses a synthesis of ideas from realist philosophy and methodology to explore post Keynesian pricing theory and identifies a coherent core of post Keynesian pricing theory strongly supported by a wide range of evidence Paul Downward critically reviews and extends both the econometric and the non econometric evidence as a basis of

understanding the causal processes of pricing Taking into account Keynes s notions of the weight of evidence and negative analogy the post Keynesian account of pricing offered in the book appears compelling The evidence presented by the author will raise substantial questions about neoclassical accounts of pricing This book will be required reading for those interested in post Keynesian economics methodology behavioural economics and institutional economics as well as for marketing and management theorists and those generally interested in pricing decisions *URPE* ,1990 **Economic Analysis of Public Law** Michael Rodi,2022-12-02 This textbook analyses from an economic perspective the phenomena of public law the constitution the democratic and political process federalism NGOs administration and state decisions It also examines selected fields of administrative law including finance and tax law public economic law and environmental law Although the book uses examples from different legal orders it maintains a focus on continental European law as it aims to advance the law and economics approach in Europe **A London Bibliography of the Social Sciences** ,1931 Vols 1 4 include material to June 1 1929 *Themes in Development Economics* Mats Lundahl,1995 This work focuses on three important areas of developmental economics methodology agriculture and the role of government
