Harris,2006-02-17 According to Robin Higham and Stephen J Harris Flight has been part of the human dream for aeons and its military application has likely been the dark side of that dream for almost as long In the twentieth century this dream and its dark side unfolded as the air forces of the world went to war bringing destruction and reassessment with each failure Why Air Forces Fail examines the complex often deep seated reasons for the catastrophic failures of the air forces of various nations Higham and Harris divide the air forces into three categories of defeat forces that never had a chance to win such as Poland and France forces that started out victorious but were ultimately defeated such as Germany and Japan and finally those that were defeated in their early efforts yet rose to victory such as the air forces of Britain and the United States The contributing authors examine the complex causes of defeats of the Russian Polish French British Italian German Argentine and American air services In all cases the failures stemmed from deep usually prewar factors that were shaped by the political economic military and social circumstances in the countries Defeat also stemmed from the anticipation of future wars early wartime actions and the precarious relationship between the doctrine of the military leadership and its execution in the field Anthony Christopher Cain s chapter on France s air force l Arm e de l Air attributes France s loss to Germany in June 1940 to a lack of preparation and investment in the air force One major problem was the failure to centralize planning or coordinate a strategy between land and air forces which was compounded by aborted alliances between France and countries in eastern Europe especially Poland and Czechoslovakia In addition the lack of incentives for design innovation in air technologies led to clashes between airplane manufacturers laborers and the government a struggle that resulted in France s airplanes being outnumbered by Germany s more than three to one by 1940 Complemented by reading lists and suggestions for further research Why Air Forces Fail provides groundbreaking studies of the causes of air force defeats Corps Commanders of the Bulge Harold R. Winton,2007 Study of the Battle of the Bulge

The Luftwaffe James S. Corum,1997 This study provides an appraisal of Germany's air forces from the post World War I era through the early stages of World War II The author demolishes several myths surrounding the Luftwaffe including the belief that they had no ideas beyond the support of ground forces *Screwball Express* Kenneth H.
