The ^AOxford History of the Archaic Greek World Paul Cartledge, Paul Christesen, 2023-09-18 The ancient Greek world consisted of approximately 1 000 autonomous polities scattered across the Mediterranean basin and each one developed its own unique set of socio political institutions and social practices The Oxford History of the Archaic Greek World offers twenty one detailed studies of key sites from across the Greek world between c 750 and c 480 BCE a crucial period when much of what is now seen as distinctive about Greek culture emerged All the studies in this seven volume series use the same structure and methodology so that readers can easily compare a wide range of Greek communities The series thus offers a new and unique resource for the study of ancient Greece that will transform how we study and think about a crucial era in ancient Greek history Volume IV contains detailed and up to date studies of Cyrene Delphi Macedonia Massalia and Metapontion

Means of Exchange Dagfinn Skre, 2008-12-31 This second volume based on the excavations of the Viking town Kaupang 2000 2003 presents find types used in economic transactions coins hacksilver ingots weights and balances Changes in type and volume of economic transactions at Kaupang and in Scandinavia are discussed and the economic mentality of Viking crafts and tradesmen is explored Earlier the study of Viking silver currency was based mainly on hoards containing coins and hacksilver In this volume the combined study of the find types mentioned as well as the sophisticated chronology of settlements finds from sites like Kaupang gives a completely new insight into economy and exchange In the early 9th century silver and goods seem to have come to Kaupang mainly from the Carolingian world Silver weighed with locally produced lead weights was used as currency on a limited scale The old e unit was easily convertible to Carolingian units After the mid 9th century this early system was altered The increased availability of silver caused by the import of Islamic coins as well as the introduction in most of Scandinavia in the 860s 870s of standardized weights of probable Islamic origin paved the way from then on for an increasing use of silver as payment These studies demonstrate that sites like Kaupang led the way in economic development in Scandinavia The urban environment promoted an economic mentality which contributed significantly to the fundamental transformation of Scandinavian culture and society which culminated in the region s integration in Christian Europe in the High Middle Ages
