### Abstract

What is the determinant of the scope of justice? Should rules of justice that regulate the interactions of the members of my society be extended to cover how such members interact with outsiders, entities that fall outside the boundary of my society? Two major approaches—namely, the deontological/contractarian and the utilitarian—offer their answers. Although their answers differ, they are universal in the sense that they do not draw a boundary between the members of my society and outsiders. As a result, one answer is deficient while the other is non-feasible. The only possible answer is the “Average Principle”. The Average Principle means that the boundary of my society can expand as long as the average wellbeing (GDP/capita) of my society does not decline. However, the Average Principle faces its own problem: the Average Principle is contingent on one’s group membership—i.e., amounting to a parochial answer. That is, the Average Principle cannot be a universal response as the case with the deontological/contractarian and the utilitarian approaches. In effect, this paper finds that the scope of the justice question faces a dilemma. While the deontological/contractarian and the utilitarian approaches involve universal moral principles, one is deficient and the other is non-feasible. While the Average Principle reasoning is non-deficient and feasible, it cannot amount to a universal moral principle. This paper finds that the scope of justice dilemma has no solution that is universal while, simultaneously, non-deficient and feasible.

**Keywords** Injustice · Exploitation · Political versus social community · Utilitarian approach · Deontological/contractual approach · Parfit’s repugnant conclusion · Social welfare function · Rational choice · Altruism · Rawls’ *Theory of Justice* · Species membership problem (the boundary problem) · Animal rights · Population ethics · Malthusian resource constraints

## Scope Of Justice:

The Enigma of Justice Claire Nyblom,2023-03-20 The Enigma of Justice Freedom and Morality in the Work of Immanuel Kant G W F Hegel Agnes Heller and Axel Honneth offers a novel perspective on the idea of justice Claire Nyblom argues that justice is a cultural and historical constant routinely summoned as if it were a foundational concept to legitimate or challenge social arrangements Instead justice is characterized by a plurality of theories containing regulative and critical dimensions that are in tension Nyblom argues that the categorical imperative can be positioned as a strong evaluative standard that mediates plurality creating a revisable idea of justice resistant to relativism After identifying the originating architecture of Immanuel Kant and G W F Hegel the discussion engages with the work of Agnes Heller and Axel Honneth using the pivots of justice as an analytic lens focused on commonalities rather than differences This framework leads to a dialogue between Heller and Honneth that strengthens their respective positions The Enigma of Justice provides a valuable study and insight into the contemporary nature of justice The book provides a useful orientation for students and scholars interested in debates about justice and to those working in the areas of European philosophy social and political theory sociology and the law

*The Natural Truth of Christianity: Selections from the "Select Discourses" of John Smith, M.A.* John Smith,1882

*Justice, Legitimacy, and Diversity* Emanuela Ceva,Enzo Rossi,2013-09-13 Most contemporary political philosophers take justice rather than legitimacy to be the fundamental virtue of political institutions vis vis the challenges of ethical diversity Justice driven theorists are primarily concerned with finding mutually acceptable terms to arbitrate the claims of conflicting individuals and groups Legitimacy driven theorists instead focus on the conditions under which those exercising political authority on an ethically heterogeneous polity are entitled to do so But what difference would it make to the management of ethical diversity in liberal democratic societies if legitimacy were prior to or independent from justice This question identifies a widely underexplored issue whose theoretical salience shows how the understanding of what constitutes the primary question of political philosophy has a deep impact on how practical political questions are interpreted and addressed What difference would it make for example whether the difficulties concerning the safeguard of human rights were couched in terms of the justice or of the legitimacy of the documents and treaties sanctioning their implementation How should the issue of the quality of democracies be addressed whether one assigned priority to the justice or legitimacy of democratic institutions Addressing these and other topical questions the book offers a new theoretical angle from which to consider a number of pressing social and political issues This book was previously published as a special issue of the Critical Review of Social and Political Philosophy

**The Principles of Ethics: pt. 4. Justice** Herbert Spencer,1892 *Whose Body is it Anyway?* Cécile Fabre,2006-04-06

In the prevailing liberal ethos if there is one thing that is beyond the reach of others it is our body in particular and our person in general our legal and political tradition is such that we have the right to deny others access to our person and body even though doing so would harm those who need personal services from us or body parts However we lack the right to use ourselves as we wish in order to raise income even though we do not necessarily harm others by doing so even though we might in fact benefit them by doing so Cécile Fabre's aim in this book is to show that according to the principles of distributive justice which inform most liberal democracies both in practice and in theory it should be exactly the other way around that is if it is true that we lack the right to withhold access to material resources from those who need them we also lack the right to withhold access to our body from those who need it but we do under some circumstances have the right to decide how to use it in order to raise income More specifically she argues in favour of the confiscation of body parts and personal services as well as of the commercialization of organs sex and reproductive capacities *Justice of the Peace and Local Government Review*, 1874 *The Principles of Ethics: pt. IV. Justice; pt. V. Negative beneficence; pt. VI. Positive beneficence* Herbert Spencer, 1898 **Queensland Justice of the Peace and Local Authorities' Journal**, 1911
