A Norse Settlement in the Outer Hebrides Niall Sharples,2019-12-19 The settlement at Bornais in the Western Isles of Scotland is one of the largest rural settlements known from the Norse period in Britain It spans the period from the fifth to the fifteenth century AD when the Atlantic seaboard was subject to drastic changes The islands were systematically ravaged by Viking raiders and then colonised by Norse settlers In the following centuries the islanders were central to the emergence of the Kingdom of Man and the Isles played a crucial role in the development of the Lordship of the Isles and were finally assimilated into the Kingdom of Scotland This volume explores the stratigraphic sequence uncovered by the excavation of Bornais mounds 2 and 2A The excavation of mound 2 revealed a sequence of high status buildings that span the Norse occupation of the settlement One of these houses constructed at the end of the eleventh century AD was a well preserved bow walled longhouse and the careful excavation and detailed recording of the floor layers has revealed a wealth of finds that provides invaluable insight into the activities taking place in this building The final house in this sequence is very different in form and use and clearly indicates the increasing Scottish influence on the region at the beginning of the thirteenth century The excavation of mound 2A provides an insight into the less prestigious areas of the settlement and contributes a significant amount of evidence on the settlement economy The area was initially cultivated before it became a settlement local and throughout its life a focus on agricultural activities such as grain drying and processing appears to have been important In the thirteenth century the mound was occupied by a craftsman who produced composite combs gaming pieces and simple tools The evidence presented in this volume makes a major contribution to the understanding of Norse Scotland and the colonisation of the North Atlantic in a period of dramatic transformations

History, Literature, and Music in Scotland, 700-1560 Russell Andrew McDonald,2002-01-01 McDonald brings together contributions from scholars working in different disciplines but with a common interest in this history and society of Scotland between AD 700 and AD 1560

Native Lordship in Medieval Scotland Cynthia J. Neville,2005 In the century or so after 1125 significant numbers of Anglo Norman and European noblemen settled in Scotland at the invitation of the crown chiefly in the lowlands North of the Forth however lay large provincial lordships ruled on behalf of the king by hereditary lords known as mormaers Even after the arrival of the newcomers the native rulers of this area Gaelic speakers for the most part remained a small powerful and largely independent group During a period of profound change for Scottish royal government it saw Robert I seize power in 1306 Using the lordships of Strathearn and Lennox as focal points this book explores the complex nature of the encounter between the cultures of the Gaels and the Europeans and shows how important were native customs and practices in the making of the later medieval kingdom

Making a Mark Andrew Meirion Jones,Marta Díaz-Guardamino,2019-03-31 The visual imagery of Neolithic Britain and Ireland is spectacular While the imagery of passage tombs such as Knowth and Newgrange are well known the rich imagery on decorated portable artefacts is less well understood How does the visual

imagery found on decorated portable artefacts compare with other Neolithic imagery such as passage tomb art and rock art How do decorated portable artefacts relate chronologically to other examples of Neolithic imagery Using cutting edge digital imaging techniques the Making a Mark project examined Neolithic decorated portable artefacts of chalk stone bone antler and wood from three key regions southern England and East Anglia the Irish Sea region Wales the Isle of Man and eastern Ireland and Northeast Scotland and Orkney Digital analysis revealed for the first time the prevalence of practices of erasure and reworking amongst a host of decorated portable artefacts changing our understanding of these enigmatic artefacts Rather than mark making being a peripheral activity we can now appreciate the central importance of mark making to the formation of Neolithic communities across Britain and Ireland The volume visually documents and discusses the contexts of the decorated portable artefacts from each region discusses the significance and chronology of practices of erasure and reworking and compares these practices with those found in other Neolithic contexts such as passage tomb art rock art and pottery decoration A contribution from Antonia Thomas also discusses the settlement art and mortuary art of Orkney while Ian Dawson and Louisa Minkin contribute with a discussion of the collaborative fine art practices established during the project

Antiquity Antiquity Publications Ltd, 1992 *The Sea Kings* R. Andrew McDonald, 2020-05-28 The archipelagic kingdoms of Man and the Isles that flourished from the last quarter of the eleventh century down to the middle of the thirteenth century represent two forgotten kingdoms of the medieval British Isles They were ruled by powerful individuals with unquestionably regnal status who interacted in a variety of ways with rulers of

surrounding lands and who left their footprint on a wide range of written documents and upon the very landscapes and seascapes of the islands they ruled Yet British history has tended to overlook these Late Norse maritime empires which thrived for two centuries on the Atlantic frontiers of Britain This book represents the first ever overview of both Manx and Hebridean dynasties that dominated Man and the Isles from the late eleventh to the mid thirteenth centuries Coverage is broad and is not restricted to politics and warfare An introductory chapter examines the maritime context of the kingdoms in light of recent work in the field of maritime history while subsequent chronological and narrative chapters trace the history of the kingdoms from their origins through their maturity to their demise in the thirteenth century Separate chapters examine the economy and society church and religion power and architecture *Walford's Guide to Reference Material: Social and historical sciences, philosophy and religion* Albert John Walford, Marilyn Mullan, Priscilla Schlicke, Library Association, 1996 This new edition of Volume II last published in 1994 has been extensively expanded and revised in all areas Fully updated the new edition includes major changes and covers a span of topics from archaeology through medieval history to statistics It includes philosophy psychology religion social sciences geography biology and history All areas have been completely updated with additional material in economics business and management Proceedings of the Society of Antiquaries of Scotland Society of Antiquaries of Scotland, 2007 Includes List of members Scotland Kevin J. Edwards, Ian B. M. Ralston, 1997-03-11 The results of recent field research are incorporated broader hypotheses are considered and outstanding problems summarized in an engrossing and well argued text **Fair Isle** John R. Hunter, 1996 This detailed and informative book is the result of many years of survey and excavation on Fair Isle The chapters display a breadth of knowledge and information from a wide variety of sources and disciplines as Dr Hunter presents a holistic investigation into the archaeology and history of the island community over several millennia **The Archaeological Journal** ,2014 Conversion and Christianity in the North Sea World B.
