Scripture in Context II William W. Hallo, James C. Moyer, Leo G. Perdue, 1983 In the summers of 1978 and 1980 William W. Hallo directed two National Endowment for the Humanities Summer Seminars both of which had the title Biblical History in its Near Eastern Setting. These seminars conducted at Yale University have now resulted in two related collections of essays. This second collection, *Scripture in Context II*, had its origins in the 1980 seminar. Both seminars investigated in chronological sequence the major phases of ancient Near Eastern history and focused on the history, literary traditions, and religion of ancient Israel within the context of her cultural environs. A major concern was to recognize and explore the implications of the way in which the native biblical and extra-biblical literary traditions rendered account of themselves. The methodology followed in the seminars and the resulting essays is the contextual approach. This approach to the study of biblical history, literature, and religion is concerned not only to discover illuminating and insightful parallels between biblical and extrabiblical sources but also to note and recognize the implications of significant and important differences. Scripture in Context II William W. Hallo, 1983 **Ancient Near Eastern Thought and the Old Testament** John H. Walton, 2018-05-15 Understand how ancient people viewed the world to better understand the Old Testament. Leading evangelical scholar John Walton surveys the cultural context of the ancient Near East, bringing insight to the interpretation of specific Old Testament passages. This new edition of a top-selling textbook has been thoroughly updated and revised throughout to reflect the refined thinking of a mature scholar. It includes over 30 illustrations. Students and pastors who want to deepen their understanding of the Old Testament will find this a helpful and instructive study. *The Comparative Method in Ancient Near Eastern and Biblical Legal Studies* Meir Malul, 1990 **The World's Oldest Literature** William W. Hallo, 2010 Literature begins at Sumer; we may say. Given that this ancient crossroads of tin and copper produced not only bronze and the entire Bronze Age but also by necessity the first system of record-keeping and the technique of writing. Scribal schools served to propagate the new technique, and their curriculum grew to create, preserve, and transmit all manner of creative poetry. In a lifetime of research, the author has studied multiple aspects of this most ancient literary oeuvre, including such questions as chronology and bilingualism, as well as contributing fundamental insights into specific genres such as proverbs, letters, prayers, and lamentations. In addition, he has drawn conclusions for the comparative or contextual approach to biblical literature. His studies, widely scattered in diverse publications for nearly fifty years, are here assembled in convenient one-volume format, made more user-friendly by extensive cross-references and indices. *The Levite Singers in Chronicles and Their Stabilising Role* Ming Him Ko, 2017-08-10 This study focuses on the Chronicler's special interest in Levite singers. It takes into consideration the socio-ideological milieu of the Jerusalem temple community in the Persian period and the Mesopotamian elite professional norms and practices that nourished the singers and their music. It also explores the conception of the earthly temple as representative of its heavenly counterpart and looks at the way in which this

shaped the Chronicler's theological frame of reference. The work is divided into two parts. Part I examines the Mesopotamian scribal musical background to which Ko attributes the rise of music in Chronicles. Part II considers the Chronicler's ideological perspective, the language of the temple, and the educational scribal and liturgical services of Levite singers. By focusing on the characterisation of the Levite singers in the light of their Mesopotamian counterparts, Ko shows how they sought to foster cosmic stability according to the terms of the Davidic covenant.

Archaeology and the Old Testament James B. Pritchard, 2008-07-29. Archaeology is a science in which progress can be measured by the advances made backward into the past. The last one hundred years of archaeology have added a score of centuries to the story of the growth of our cultural and religious heritage as the ancient world has been recovered from the sands and caves of the modern Near East: Egypt, Jordan, Israel, Syria, Lebanon, Turkey, and Iraq. Measured by the number of centuries which have been annexed to man's history in a relatively few years, progress has been truly phenomenal. This book deals with the recent advance and with those pioneers to the past who made it possible. Interest in biblical history has played an important part in this recovery. Names such as Babylon, Nineveh, Jericho, Jerusalem, and others prominent on the pages of the Bible have gripped the popular imagination and worked like magic to gain support for excavations. This book is written from the widely shared conviction that the discovery of the ancient Near East has shed significant light on the Bible. Indeed, the newly discovered ancient world has effected a revolution in the understanding of the Bible, its people, and their history. My purpose is to assess, in non-technical language which the layman can understand, the kind of change in viewing the biblical past which archaeology has brought about in the last century. Since the text of the Bible has remained constant over this period, it is obvious that any new light on its meaning must provide a better perspective for seeing the events which it describes. In short, I am concerned with the question: How has history as written in the Bible been changed, enlarged, or substantiated by the past century of the archaeological work from the Preface.

Mesopotamia and the Bible Mark W. Chavalas, K. Lawson Younger, Jr., 2003-12-01. The study of Syro-Mesopotamian civilization has greatly advanced in the past twenty-five years. In particular, the renewed interest in Eastern or Mesopotamian Syria has radically altered our understanding of not only the ancient Near East but of the Bible as well. With Syria east of the Euphrates becoming one of the most active areas of archaeological investigation in the entire Near East, the need for a synthesis of this research and its integration with the Hebrew Bible has greatly increased. This volume charts the state of our knowledge following a general chronological flow and will appeal not only to scholars of the ancient Near East but also to Biblical specialists interested in the historical and religious backgrounds to the Israelite and Judahite kingdoms.

Scripture in context 2 : more essays on the comparative method William W. ; Moyer, Hallo (James C. ; Purdue, Leo G.), 1983. *Prophecy in Its Ancient Near Eastern Context* Martti Nissinen, 2000. The articles are written from manifold perspectives including methodological, socioreligious, and anthropological, as well as historical viewpoints.

BOOK JACKET **Because I Am Compassionate** David Nonnenmacher Jr., 2025-10-07. All of the law

collections in the ancient world both biblical and cuneiform promoted humanitarian values that is justice for the lawbreaker and mercy for the needy Scriptural passages advocating for the needs of the widow and the orphan for example find parallels within the prologues of their Near Eastern legal contemporaries What is it then that makes the law of the Israelites stand out as righteous among the law collections of the surrounding nations as its author Yhwh claims Deut 4 8 With special attention to the Book of the Covenant Exod 21 23 this study shows how biblical law possesses a unique inherent and innovative humanitarian outlook rooted in the compassionate character of Yhwh as modeled by his actions in the exodus narrative God s proclamation of compassion in Exod 22 26 27 serves as the initial focal point Each subsequent chapter zooms out further in scope Such compassion this study asserts not only establishes the basis for the Book of the Covenant s humanitarian values but also provides the motivation for its readers to live according to its directives

Who's who in Biblical Studies and Archaeology, 1993 *Who's who in Biblical Studies and Archaeology* Biblical Archaeology Society, 1993 Messianism Within the Scriptural Scroll of Isaiah Randall Heskett, 2007-09-20 This work re-examines the traditional messianic texts in Isaiah used by later Judaism and or Christianity Older modern historical criticisms tended to focus on the historical origins of Israelite traditions so that most of the texts traditionally regarded as messianic came to be understood as non-messianic However Heskett uses various historical critical methods and other contextual methodologies to show how smaller units of non-messianic tradition in the prehistory of the book gained a new messianic significance when they became part of the book of Isaiah as a whole From that perspective there are arguments for some messianic promises within the book of Isaiah showing that within the book s scriptural context the texts themselves provide a warrant for messianic readings This study takes into account the important similarities and differences in Jewish and Christian perceptions of the same
