

The Scientific Knowledge

Scientific knowledge refers to information acquired through systematic, empirical investigation and analysis within the framework of the scientific method.

It involves observation, experimentation, and the formulation of hypotheses and theories to understand natural phenomena. Scientific knowledge is characterized by its rigor, objectivity, and the pursuit of evidence-based explanations.

It undergoes continuous refinement as new evidence emerges, contributing to the cumulative body of human understanding. The scientific process aims for reproducibility and reliability, fostering a dynamic and evolving understanding of the natural world.

Scientific knowledge serves as a foundation for technological advancements and informed decision-making.
