Here we bring forward critical appraisals of six French geographers and so illustrate the rich traditions of geographical scholarship in that country of a leading Portuguese figure a Briton who played a major role in establishing geography in modern New Zealand and a British woman who pioneered connections between the history of geography in practice and the histories of science and technology. Geographers' lives and geography's making is here wonderfully illuminated in international national and cross disciplinary context. *Some Principles in the Teaching of History* Lucy Maynard Salmon, 1902. *Annals of the Association of American Geographers* Association of American Geographers, 1927
