**Hemingway's Cats** Carlene Brennen, 2011-05-03 A revised edition for lovers of cats and literature Hemingway's Cats tells of the many cats the famed writer Ernest Hemingway had as a child to the more than 30 felines that this book chronicles in his adult life Filled with rare photos of the author and his cats Foreword by Hemingway's niece **Hemingway's Cats** Carlene Fredericka Brennen, 2005 Illustrated with more than 200 photographs this unique biography explores the life of Ernest Hemingway the women he loved and his affinity for the companion animals both cats and dogs he kept throughout his lifetime **Scribner's Monthly** Josiah Gilbert Holland, Richard Watson Gilder, 1914 **Dancing at Lughnasa** Joan Fitzpatrick Dean, 2003 Lucid and accessible style makes the series appealing to the general reader Liberally illustrated throughout with stills from the film under discussion Collaboration between Cork University Press and the Film Institute of Ireland Between the premiere of Brian Friel's stage play *Dancing at Lughnasa* in 1990 and Pat O'Connor's cinematic adaptation in 1998 Ireland experienced seismic economic and social changes as well as Riverdance Angela's Ashes and an international vogue for all things Irish Set in 1936 *Dancing at Lughnasa* as both film and play imagines an anachronistic past in which the loss of joyous communal ritual is symptomatic of the cultural malaise so often associated with Ireland in the 1930s Drawing upon unpublished material from the Friel archive at the National Library of Ireland Joan FitzPatrick Dean contrasts the expressly theatrical elements of Friel's play and their cinematic counterparts *For America* Jeremiah William McCarthy, Diana Thompson, 2019-01-01 Featuring paintings by American icons like Winslow Homer and Thomas Eakins this book illustrates the ways American artists have viewed themselves their peers and their painted worlds over 200 years *The State of the Animals III, 2005* Deborah J. Salem, Andrew N. Rowan, 2005 *Designing the Creative Child* Amy F. Ogata, 2013-04-21 The postwar American stereotypes of suburban sameness traditional gender roles and educational conservatism have masked an alternate self image tailor made for the Cold War The creative child an idealized future citizen was the darling of baby boom parents psychologists marketers and designers who saw in the next generation promise that appeared to answer the most pressing worries of the age *Designing the Creative Child* reveals how a postwar cult of childhood creativity developed and continues to this day Exploring how the idea of children as imaginative and naturally creative was constructed disseminated and consumed in the United States after World War II Amy F. Ogata argues that educational toys playgrounds small middle class houses new schools and children's museums were designed to cultivate imagination in a growing cohort of baby boom children Enthusiasm for encouraging creativity in children countered Cold War fears of failing competitiveness and the postwar critique of social conformity making creativity an emblem of national revitalization Ogata describes how a historically rooted belief in children's capacity for independent thinking was transformed from an elite concern of the interwar years to a fully consumable and aspirational ideal that persists today From building blocks to Gumby playhouses to Playskool trains Creative Playthings to the Eames House of Cards Crayola

fingerpaint to children's museums material goods and spaces shaped a popular understanding of creativity and Designing the Creative Child demonstrates how this notion has been woven into the fabric of American culture *The North Carolina Historical Review*, 2001 **The American Stationer**, 1894 Annual Report of the Trustees Metropolitan Museum of Art (New York, N.Y.). Board of Trustees, 2001 **Democracy Reconsidered** Elizabeth Kaufer Busch, Peter Augustine Lawler, 2009-01-01 Democracy Reconsidered provides an enlightening study of democracy in America's post modern context Elizabeth Kaufer Busch and Peter Augustine Lawler explore some of the foundational principles of democracy as they have been borne out in American society The essays included in this volume examine the lessons that novelists philosophers and political theorists have for democratic societies as they progress towards postmodern skepticism or even disbelief in the absolute principles that form the foundation of democracies Led by the provocative observations of Lawler a member of President Bush's Council on Bioethics the first section lays out the predicament caused by the gravitation of democracy towards a disbelief in absolute truth leading to a crisis of self evidence The second section searches for tools that one might use to restore health to the individual and community within American democracy including spiritual faith creative autonomy and philosophic inquiry The third section addresses the supposed crisis in liberal education caused by our crisis of self evidence Included essays explore the extent to which the professed aims of liberal education may be at odds with the cultivation of dutiful citizens The book closes by considering some of the political consequences of employing content less freedom as the primary standard by which human behaviour is judged **The School Journal**, 1902 **Critical Companion to Flannery O'Connor** Connie Ann Kirk, 2008 Examines the life and writings of Flannery O'Connor including detailed synopses of her works explanations of literary terms biographies of friends and family and social and historical influences *American Watercolor in the Age of Homer and Sargent* Kathleen A. Foster, Philadelphia Museum of Art, 2017-01-01 The fascinating story of the transformation of American watercolor practice between 1866 and 1925 The formation of the American Watercolor Society in 1866 by a small dedicated group of painters transformed the perception of what had long been considered a marginal medium Artists of all ages styles and backgrounds took up watercolor in the 1870s inspiring younger generations of impressionists and modernists By the 1920s many would claim it as the American medium This engaging and comprehensive book tells the definitive story of the metamorphosis of American watercolor practice between 1866 and 1925 identifying the artist constituencies and social forces that drove the new popularity of the medium The major artists of the movement Winslow Homer John Singer Sargent William Trost Richards Thomas Moran Thomas Eakins Charles Prendergast Childe Hassam Edward Hopper Charles Demuth and many others are represented with lavish color illustrations The result is a fresh and beautiful look at watercolor's central place in American art and culture *Companion Animals in Society* Stephen Zawistowski, 2008 Since companion animals are a significant part of American society a substantial body of research has been developed to demonstrate how they play a significant role impacting the

physical and psychological health of people of all ages Animal companions also help to drive an economic engine estimated at near forty billion dollars per year for food toys veterinary care and other support services and products The popularity of companion animals has no doubt played an important role in the interest that the general public and college students in particular have in careers related to companion animal care The social issues that surround companion animals are complex and continuing to evolve Questions related to pet overpopulation and animal cruelty are just a couple of the many issues that cut across a range of disciplines and philosophies Companion Animals in Society combines the current available knowledge on companion animal husbandry with an introduction to these issues and how society is currently coping with them in order to provide the most useful resource in the market today
