Ralph Engelman

Murrow Boys:

The Murrow Boys Stanley Cloud, Lynne Olson, 1996 Smith invented the craft of radio reporting as they went along winning the hearts of Americans *Friendlyvision* Ralph Engelman, 2011-04-20 Fred Friendly 1915-1998 was the single most important personality in news and public affairs programming during the first four decades of American television Portrayed by George Clooney in the film *Good Night and Good Luck* Friendly together with Edward R. Murrow invented the television documentary format and subsequently oversaw the birth of public television Ralph Engelman's biography is the first comprehensive account of Friendly's life and work Juggling the roles of producer, policy maker, and teacher Friendly had an unprecedented impact on the development of CBS in its heyday wielded extensive influence at the Ford Foundation under the presidency of McGeorge Bundy and trained a generation of journalists at Columbia University during a tumultuous period of student revolt Drawing on private papers and interviews with colleagues, family members, and friends *Friendlyvision* is the definitive story of broadcast journalism's infamous wild man providing crucial perspective on the past and future of American journalism *Murrow's Cold War* Gregory M. Tomlin, 2016-05 In March 1961 America's most prominent journalist Edward R. Murrow ended a quarter-century career with the Columbia Broadcasting System to join the administration of John F. Kennedy as director of the United States Information Agency (USIA) Charged with promoting a positive image abroad the agency sponsored overseas research programs, produced documentaries, and operated the Voice of America to spread the country's influence throughout the world As director of the USIA Murrow hired African Americans for top spots in the agency and leveraged his celebrity status at home to challenge all Americans to correct the scourge of domestic racism that discouraged developing countries from aligning with the West Using both overt and covert propaganda programs Murrow forged a positive public image for Kennedy administration policies in an unsettled era that included the rise of the Berlin Wall, the Cuban Missile Crisis, and support for Vietnam's Ngo Dinh Diem Murrow's *Cold War* tackles an understudied portion of Murrow's life, reveals how one of America's most revered journalists improved the global perception of the United States, and exposes the importance of public diplomacy in the advancement of U.S. foreign policy **Dark Days in the Newsroom** Edward Alwood, 2007-06-28 *Dark Days in the Newsroom* traces how journalists became radicalized during the Depression era, only to become targets of Senator Joseph McCarthy and like-minded anti-Communist crusaders during the 1950s Edward Alwood, a former news correspondent, describes this remarkable story of conflict, principle, and personal sacrifice with noticeable flair He shows how McCarthy's minions pried inside newsrooms, thought to be sacrosanct under the First Amendment, and details how journalists mounted a heroic defense of freedom of the press while others secretly enlisted in the government's anti-Communist crusade Relying on previously undisclosed documents from FBI files, along with personal interviews, Alwood provides a richly informed commentary on one of the most significant moments in the history of American journalism Arguing that the experiences of the McCarthy years profoundly influenced the practice of journalism, he shows

how many of the issues faced by journalists in the 1950s prefigure today's conflicts over the right of journalists to protect their sources

The Public Press, 1900-1945 Leonard Ray Teel, 2006-06-30 This work is the fifth volume in the series *The History of American Journalism* By 1906 the nation included 45 states connected by railroads steamships wagon trails the postal system the telegraph and the press The continuing trends of migration and immigration into the cities supported the publication of more newspapers than at any time in the history of the country From coast to coast newsgathering agencies knit thousands of local newspapers into the fabric of the nation and larger metropolitan papers routinely considered the relevancy of distant news

Time Briton Hadden, Henry R. Luce, 1996-05

Salant, CBS, and The Battle For The Soul Of Broadcast Journalism Richard S. Salant, Susan Buzenberg, 1999 The late Richard Salant a lawyer with no journalism background was president of CBS News for sixteen years throughout the 1960s and 1970s He became widely recognized by journalists as the patron saint of television news Salant's reputation as a news manager is the standard against which all others are still judged He was instrumental in making CBS the finest broadcast news organization in the world at that time Salant's CBS story picks up where Edward R. Murrow's leaves off During his tenure Salant confronted issues of enormous importance Vietnam the civil rights movement and Watergate He launched the first thirty minute television news broadcast the CBS Evening News with Walter Cronkite He started 60 Minutes still one of the most admired and successful newsmagazines on television He created the news analysis slot for Eric Sevareid He defended the independence of CBS News from internal as well as external pressures Along the way he hired Mike Wallace Roger Mudd Dan Rather and Diane Sawyer and fired Howard K. Smith and suspended Daniel Schorr Coming at a time of crisis in American journalism when standards public respect for the media and audiences are decreasing and news professionals are struggling to understand what went wrong Salant's voice speaks boldly for a return to journalistic integrity a message that has never been more timely

Winch, 1997-04-30 Addressing the controversial issues of the blurring boundaries between news and entertainment and the movement toward sensationalism in broadcast journalism this study examines these distinctions how boundaries are constructed and by whom how they are enforced or broken and why Rather than reflecting essential attributes by which news can be distinguished from other kinds of communication boundary setting is viewed as a social construction determined and changed by journalists wishing to assert their jurisdiction and authority and the prestige of the profession Four instances of boundary work rhetoric are examined in depth 1 the development of roles and rules of television journalism during the early years of television 2 attempts at Congressional and FTC regulation broadcasting codes defining bona fide news 3 responses to a 1992 journalistic scandal over a Dateline NBC story on exploding GM pickup trucks
