einzelnen Komponisten wie auch ihre soziokulturellen Kontexte erhellt Ein umfangreiches Verzeichnis aller bekannten Werke und eine ausführliche Bibliographie laden zu weiterer Erkundung des Sujets ein Only in relatively recent times has any real attention been given to British symphonies So a comprehensive survey showing what exists and how the situation in the United Kingdom developed from the beginnings in the 18th century until well into the 20th century is long overdue The preliminary survey presented here shows how a British symphonic identity gradually took shape over more than a century through influences from abroad and at home enterprising attempts to find new ways of expression By the end of the 19th century British symphonists had produced an impressive body of work yet only with the appearance of Elgar s two symphonies in the following decade did this flourishing school find a champion of international renown In this publication light is shone on those works that have to some extent been overshadowed as well as on those that have remained unpublished or unperformed The result is a multi faceted panorama of British symphonism offering many insights into the composers thinking and their socio cultural contexts A comprehensive catalogue of all known works and an extensive bibliography invite readers to delve further into the subject

Music Entries at Stationers' Hall, 1710-1818 Michael Kassler,2016-04-29 The British Copyright Act of 1709 protected proprietors of books and music printed after 10 April 1710 who gave copies to the Company of Stationers in London Upon receipt of a copy usually within days of its first publication the Stationers Hall warehouse keeper entered details into a register They included the date of registration the name of the work s proprietor its author or if copyright had been transferred its publisher and the work s full title which normally named the composer and the writer of any text and often named the work s performers and dedicatee Although some publishers put the words Entered at Stationers Hall on title pages without actually depositing copies the information in the registers about the many works that were registered has significant bibliographic value Because the music entries have not previously been printed and access to them has been difficult they generally have been ignored by cataloguers and scholars with the consequence that numerous musical works of this period have been misdated in libraries and reference books This book makes available for the first time the full text of the music entries at Stationers Hall from 1710 to 1810 and abbreviated details of works entered from 1811 to 1818 Its value is enhanced by the inclusion of locations of copies of most works together with indexes of composers authors performers and dedicatees and an explanatory introduction by the compiler
